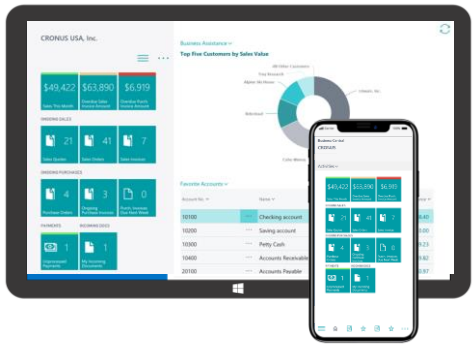
Migrating to Dynamics 365 Business Central Overview

TRIANGLE



Why Dynamics 365 Business Central

Your Dynamics on-premises solution helped you run and grow your business. But in this time of digital transformation, a modern, cloud-based solution can help take your business to new heights. Business Central helps companies reduce long-term software costs, decrease dependency on IT, and optimize operations and customer experiences through predictive analytics, AI, and data visualizations. Take the next steps to learn how Business Central can help you:

- **Stay current on the latest Microsoft cloud-powered technology** without the hassle and expense of upgrades, backups, and patches.
- **Improve remote access and empower employees wherever they need to work** with powerful, secure desktop capabilities across Windows, iOS, and Android platforms.
- **Reduce total cost of ownership and improve cashflow** by transitioning to a predictable monthly operating expense**.** A modern user interface based on the Office tools you already know means less training time and faster return on investment.
- **Simplify common tasks with native Microsoft 365 integration.** Set up customers or vendors, create quotes, process orders, and submit invoices without leaving your inbox. Easily export data in Excel and create outgoing documents directly in Word.
- **Make better business decisions with advanced analytics.** Access, model, and analyze data across multiple dimensions. Seamlessly sync data with Microsoft Power BI to create compelling dashboards and data visualizations.
- **Utilize the power of AI for predictive inventory, sales forecasting, cash flow forecasting, and overdue payment predictors.** Combine big data, predictive analytics, and Internet of Things (IoT) to transform all information sources into more actionable intelligence.
- **Leverage your data to build apps specific to your business processes.** Further extend your Business Central solution using Microsoft Power Platform and the Common Data Service.
- **Configure your systems with ease and connect third-party apps to Business Central** using business add-ons from AppSource. Or work with your Business Central partner to build extensions for your specific needs.
- **Gain peace of mind** knowing your sensitive business data is stored in highly secure, state-of-the-art data centers owned and managed by Microsoft and a 99.9% uptime service-level agreement (SLA).
- **Be ready for what's next.** Easily add and integrate other Dynamics 365 applications as your business needs change and integrate with other third-party apps.

Take advantage of Business Central offers for existing customers

CSP-Enhancement Plan Renewal Offer available June 1, 2020 – June 30, 2021

Dynamics GP, Dynamics NAV, or Dynamics SL on-premises customers with an active Enhancement Plan subscription can renew Enhancement Plan through CSP to reduce capital spending by spreading payments monthly instead of paying the annual lump sum. You will have your licensed users for Dynamics 365 Business Central (Cloud) when you are ready to migrate:

- Pay for and license Dynamics 365 Business Central (Cloud) users on a monthly basis at the same total amount as your annual Enhancement Plan with up to 60% discount on the Business Central Cloud users.
- Allows for dual-use right and downgrade rights to your Dynamics GP, NAV, or SL on-premises version. You can continue to use your current on-premises application while you transition to your Dynamics 365 Business Central (Cloud) solution and get full Enhancement Plan benefits with the offer for your current on-premises application.
- You need to license Dynamics 365 Business Central (Cloud) users at a minimum to the same price as your annual Enhancement Plan. 1-year subscription with two year auto-renewal option.
