About Global Teleclinic

We are a Polish medical company represented by a team with many years of experience in providing medical services of the highest quality. Our proprietary technology allows for easy contact between the patient and the doctor in order to recognize the symptoms of the disease faster and start the treatment process earlier.

The Global Teleclinic telemedicine platform offers a wide range of remote health services. Allows patients to consult doctors and medical professionals via the Internet.

The scope of our services includes medical, nursing, psychological, dietetic consultations, health monitoring, obtaining a referral and laboratory tests.

How does it work?
