Power Platform App in a Day

Service Name: App in A Day

A One-Day Workshop to Learn PowerApps with Hands-On Labs (6-HOURS)

Service Description

As a business leader, you must rely on something other than creating a software solution to respond swiftly to the changing market. You want to develop a solution to match your business's needs quickly. You can create fantastic business apps using Microsoft Power Platform without writing codes.

In this workshop, you'll better understand how to:

- Make work more accessible and paperless by digitizing your manual business procedures. You can quickly create and deploy both canvas-style and model-driven custom business apps using Power Apps.

- Easily link all of your applications. Your line-of-business professionals will be able to swiftly construct effective apps with Microsoft Dataverse thanks to a compliant and scalable data service and app platform built right into Power Apps.

- Automate and optimize your business processes. With Power Automate as your business service, your line-of-business specialists and IT professionals can build automated workflows intuitively.

Outcome

After the workshop, you will understand the capabilities and applicability of power apps and power automation. **You'll be able to:**

- Create custom business applications without writing code.

- Learn how to build sophisticated business processes and complex data relationships within your applications.

- Learn how to connect your app to various data sources to bring it to life.

- Share your apps inside your organization securely.

Service Deliverables: Creating Basic canvas app, model-driven app, power automate flow, and lab guide:
