- iCARE
- iReport
- REMA

# Havis 360 – Our Suite of Business Applications

## V-Login

This is a visitor management solution that puts you in charge of the 'Who, Why and When' visitors allowed into your organization.

It eradicates the traditional paper and pen method by automating these processes with seamless digital approach.

## STAAS

This is a solution that digitizes the process of tracking when employees start and end their work hours.

It is also efficient for businesses with both remote and non-remote workers as it quickly enables them to access and generate detailed reports.

## Havis iCare

Havis iCare is a modern workplace application that engages employees with helpful tips at intervals to improve their well-being while working, provides work support, and overall promotes optimal performance in the workplace.

# Havis 360 – Suite of our Business Applications

## Havis iReport

Havis Intelligent Report (Havis iReport) is an intelligent employee tasks/productivity tracker/solution that monitors the daily/weekly/monthly tasks done by employees in an organisation.

## Havis Vacay

This is an employee leave and absence management solution that eradicates the traditional paper and pen request method for leave applications. It helps organizations plan, manage, and track employee absences, including vacation, sick leave, and their entitlements.

# Havis iR3cruit360 – Our Suite of HR Solutions

iR3cruit360 solution brings about a seamless process for HR, starting from raising a job requisition to staff onboarding and offboarding. It covers the totality of the HR processes an employee goes through in an organization.

## Pre-hiring Process

All Pre-hiring Processes such as Job requisition, jobs posting, candidate sourcing, screening, and hiring are catered for by the Pre-Hiring module of **iR3cruit360**

## Onboarding

The Onboarding module of **iR3cruit360** enables new hires to comfortably embark on the journey with your organization. It allows for compliance, clarification, culture indoctrination, and connection of new hires

## Offboarding

Offboarding module helps you to adequately usher employees who are leaving your organizations. It takes care of contract termination, exit interview, hand over, knowledge transfers and asset retrieval processes.

# Havis iR3cruit365

iR3cruit365 solution brings about a seamless process for HR, starting from raising a job requisition to staff offboarding. It covers the totality of the HR processes an employee goes through in an organization.

**This application helps the HR department manage the following and more not listed processes in this proposal effectively:**

- ▶ Pre-hiring Process (Job requisition, job posting, candidate sourcing, screening, hiring, etc.)
- ▶ Onboarding
- ▶ Offboarding / Exit Management

**Some of the key impacts and benefits of iRecruit365 in your organization include:**

- ▶ Faster decision process
- ▶ Instant notifications
- ▶ Standardized Process
