THE HAFN IT AZURE LANDING ZONE IS YOUR LANDING BRIDGE TO CLOUD

HAFN IT AZURE LANDING ZONE

With the HAFN IT Solution Azure Landing Zone, we create an easy, fast and secure way to the Microsoft Azure Cloud.
To do this, we use proven recommendations from Microsoft to build a solid foundation for your Azure Cloud.

STANDARDISIERT UND AUTOMATISIERT MIT DER HAFN IT IN DIE CLOUD

The first step is to set up all the necessary Azure subscriptions and create the organizational framework.

It then configures the necessary roles for secure access to resources and defines compliance and security policies.

Basic Azure Cloud services are set up based on our recommendations and connected to your existing infrastructure.

Together, we transfer your services to the Microsoft Azure Cloud and take over or support you on your request.

THE 5 PILLARS OF OUR MANAGED SERVICE

1. *Governance*: HAFN IT Managed Services are designed to optimally support your specific business structures and business goals.

2. *Security:* HAFN IT Managed Services provide you with the highest possible security of all operated systems and cloud services.

3. *Compliance:* HAFN IT Managed Services help you meet legal and regulatory requirements as well as self-set standards.

4. *Cost:* HAFN IT Managed Services keep an eye on your cloud costs and always strive for the solution with the best price-performance ratio for you.

5. *Change:* HAFN Managed Services keep track, are up to date with all new features in the Microsoft Cosmos and give you concrete recommendations.

YOUR ADVANTAGES

STANDARDS

Whether small and medium-sized enterprises or large corporations – the same requirements apply to all companies for IT systems. This applies in particular to the issues of data protection and security. Medium-sized enterprises naturally have significantly less budget and resources at their disposal.

The HAFN IT Azure Landing Zone provides standards to fill this gap and enables customization when your business requires it. This way, you can achieve an enterprise-level IT environment with little effort.

AUTOMATION

The HAFN IT Azure Landing Zone is highly automated, providing you with very short deployment times and high cost efficiency in day-to-day operations while maintaining low deployment costs. Whether it's a single test environment for a new application or preparing for the transition of thousands of virtual machines, the high level of scale makes the HAFN IT Azure Landing Zone perfectly adapt to your circumstances.

TRANSPARENCY

Whether it's project-based delivery or ongoing managed service, we offer transparency in all areas. Daily costs, an overview of all ongoing operations and a clear definition of the guaranteed services can be found in your HAFN IT customer portal.

OPERATION

Even after the setup, we will not leave you alone. We offer you a flexible managed service tailored to your needs to be there for you even after deployment.

For the entire HAFN IT Azure Landing Zone and the modules based on it, we offer you ongoing service for governance, security, compliance, cost and change.

When can we open the gate to the cloud for you?
