

# Die HAFN IT IDENTITY SOLUTION - THE SIMPLE SOLUTION FOR YOUR IDENTITY MANAGEMENT

With the HAFN IT Identity Solution - for automated on- and offboarding of your employees, your IT will relieve you sustainably. In the future, you will manage all IT roles and permissions in your hr management software without any additional effort.

## STANDARDIZED AND AUTOMATED WITH HAFN IT TO THE CLOUD

### **Option 1:**

We help you to transfer your employees and permissions into a uniform role concept.

### **Option 2:**

We develop a uniform role and authorization concept with you.

All active permissions for files and applications are linked to the new roles.

The HAFN IT Identity Solution leverages the information from your HR-management software and transfers all changes directly to your Azure Active Directory.

All previous manual control activities required for on- and off-boarding are no longer required. Users and accesses are created fully automated.

## THE 5 PILLARS OF OUR MANAGED SERVICE

- 1. Governance:** HAFN IT Managed Services are designed to optimally support your specific business structures and business goals.
- 2. Security:** HAFN IT Managed Services provide you with the highest possible security of all operated systems and cloud services.
- 3. Compliance:** HAFN IT Managed Services help you meet legal and regulatory requirements as well as self-set standards.
- 4. Cost:** HAFN IT Managed Services keep an eye on your cloud costs and always strive for the solution with the best price-performance ratio for you.
- 5. Change:** HAFN Managed Services keep track, are up to date with all new features in the Microsoft Cosmos and give you concrete recommendations.

# HAFN IT IDENTITY SOLUTION

**HAFN IT**  
Das Tor zur Cloud

## YOUR ADVANTAGES

### PERFORMANCE

Thanks to automated processes and no detours, changes can be transferred to your system much faster than before. New identities can no longer be created in minutes, but in minutes. New employees are granted the necessary access rights to all relevant applications and are immediately fully operational. When employees leave, off-boarding in minutes is a real added value for your safety, because permissions are immediately removed.

### OPERATION

The Identity Service runs permanently in the background and is completely maintained and further developed by HAFN IT. You no longer have to worry about this process in the future, but can address business-relevant topics.

### AUTOMATION

The Identity Solution works automatically. All changes in your personal data are read directly via API interfaces, transferred and activated to your Azure Active Directory. This is done for all processes, whether on- and off-boarding or switching between different roles.

### STANDARDS

By consistently complying with standards and assigning all employees to a structured role concept, errors in permissions and accesses are avoided.

Employees receive only the accesses they need. Apprentices who take comprehensive permissions from the company after their training are history.
