

MICROSOFT TEAMS CALLING SERVICES WITHOUT ADDITIONAL HARDWARE

HAFN IT SOLUTION CALLING FOR MICROSOFT TEAMS

Our telephony solution creates a simple and uniform solution for telephony and video chat that can do without an additional telephone system. Microsoft Teams users can make and receive external calls, as well as connect fax machines. It is easily possible to take over the existing numbers.

STANDARDISED AND EFFICIENT PHONE SERVICES - WITH THE HAFN IT SOLUTION CALLING FOR TEAMS

In the first step, all necessary voice channels and favorable flat rates are determined and connected to a virtual controller.

Next, Microsoft Teams telephony is connected and licensed. A part of the existing phone numbers is initiated.

Equip users with new hardware (e.B. Microsoft Teams certified phones and headsets). Preparing to connect existing analog devices (such as fax).

Finally, users are trained and switched to Microsoft Teams telephony. This can be done gradually or across the enterprise.
