Haldor Education Suite

Our tools extend the functionality of Microsoft Teams with all the features of an LMS. The seamless integration makes it possible for schools to work completely in Microsoft Teams which encourages learning and saves time.

Haldor Dashboard

A personal overview that provides a complete view of what you have coming up in the near future. Using the free dashboard, it's easy to navigate through the functions of Haldor Education Suite.

Haldor Planning

A solution for schools designed to help educators plan lessons and create engaging curricula for the digital classrooms

Haldor Assignments

Use Haldor Assignments to work with peer- and self-assessments, as well as group assignments. Create and assess assignments based on learning goals.

Haldor Timetable & Attendance

Show the personal timetables of teachers and students directly in Microsoft Teams. Manage attendance and absence in the timetable.

Haldor Timetable Plus

Give teachers, students and guardians even more functionality in the timetable. Show a complete overview of assignments, scheduled tests and parent-teacher evenings.

Haldor Student Insights

Make it easy for teachers to access everything relating to the student and student development in a student portfolio in Microsoft Teams.

Haldor Preschool Planning

Create plans and documentation in Microsoft Teams linked to national preschool goals.

Haldor Guardians

Make it easy for guardians to follow their child's learning and development, receive up-to-date information and communicate with the student mentor.

Haldor Homework

Gives parents access to student's assignments, and any feedback or assessment giving parents the insights they need to support home-learning..

Haldor Parent-Teacher Meeting

Lets student mentors add and manage bookable appointments for parent-teacher meetings.
