Pathway to Establishing GenAI Innovation Hub

4 **Adopt**

Build and Grow
Validate GenAI ideas with PoCs & MVPs while scaling COE operations for continuous improvement.

3 **EDUCATE**

Enable through AI Workshops
Build a champions community, drive AI ethics, and foster learning & innovation through training and ideation.

2 **PLANNING & IMPLEMENT**

Governance Planning
Enhance enterprise solutions, automation, and products with Microsoft-driven GenAI for efficiency and innovation.

Infrastructure and Tools Setup
Build the technical infrastructure and tools required to support GenAI initiatives.

1 **IDEATE**

Strategy and Foundation
Establish the Gen AI COE foundation, aligning with business goals and strategy.

GenAI Innovation Hub – The Journey

The Journey

Strategy and Foundation

Align stakeholders, define vision & focus areas, identify use cases, assess ROI, plan resources, and review business & tech architecture.

Governance Planning

Define architecture, governance, deployment, risk mitigation, and monitoring through stakeholder collaboration.

Infrastructure and Tools Setup

Set up cloud, tools, governance, data pipelines, and security while deploying the GenAI CoE Starter Kit.

Educate

Enable training, collaboration, and AI knowledge sharing with best practices, governance, and a knowledge repository.

Build and Grow

Develop PoCs, collaborate across departments, and expand AI use cases using Azure AI and Microsoft Copilot Studio.
