

Digital Transformation Solutions (DTS)

solution brief

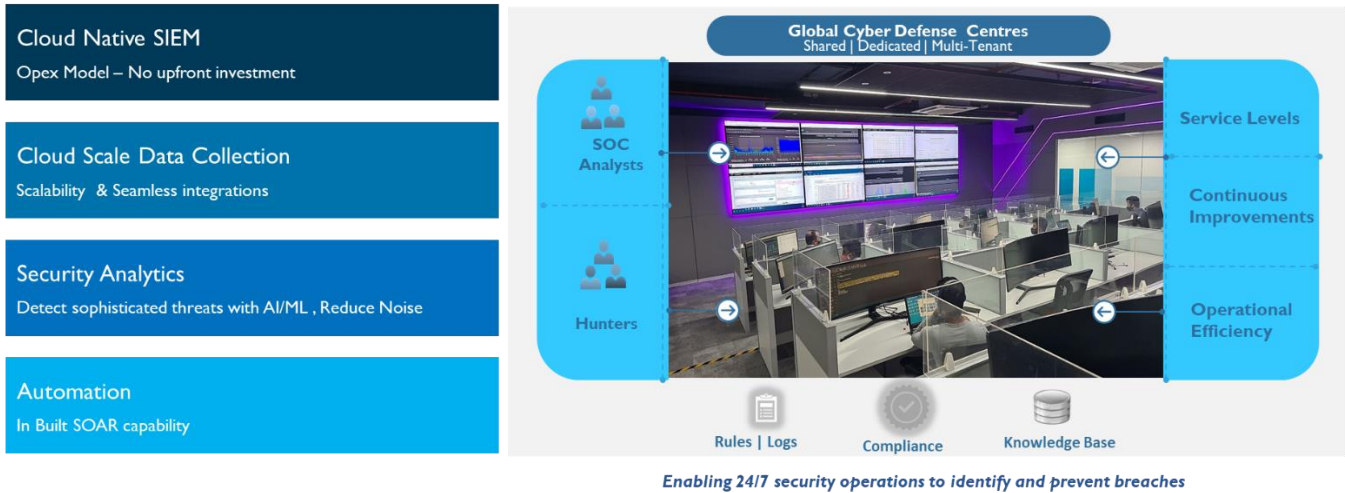

HARMAN Managed Detection and Response service

24x7 Alert Triage | Threat Intelligence | Proactive Threat Hunting and Containment

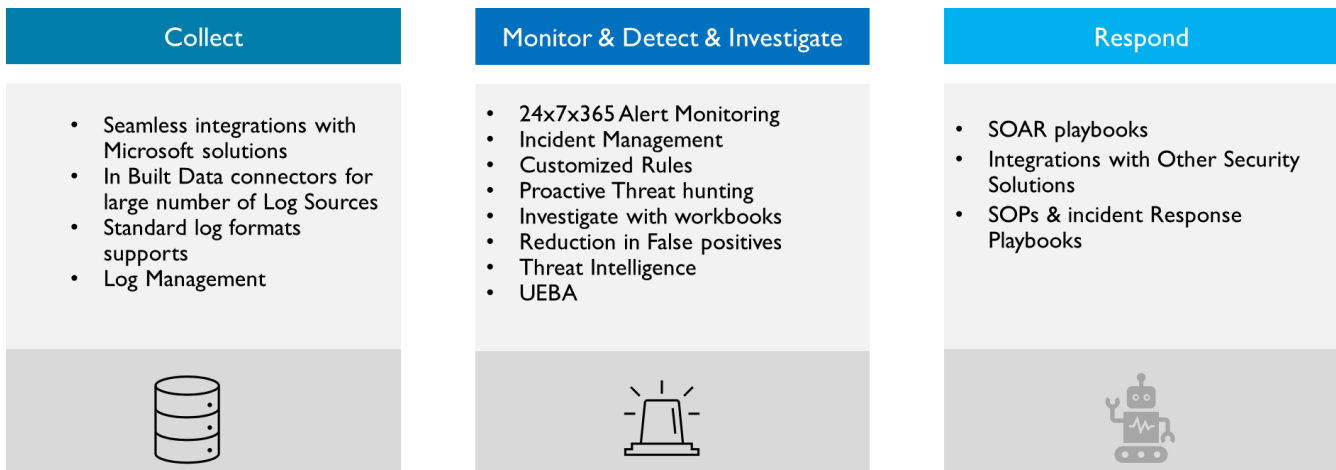

HARMAN Managed Detection and Response (MDR) service is a cloud-native security information and event management (SIEM) and security orchestration, automation, and response (SOAR) solution; powered by Microsoft® Sentinel, also known as Azure® Sentinel. It is designed to help organizations detect, investigate and respond to security threats across their entire IT infrastructure.

Harman’s MDR Services – Powered with Microsoft Azure Sentinel

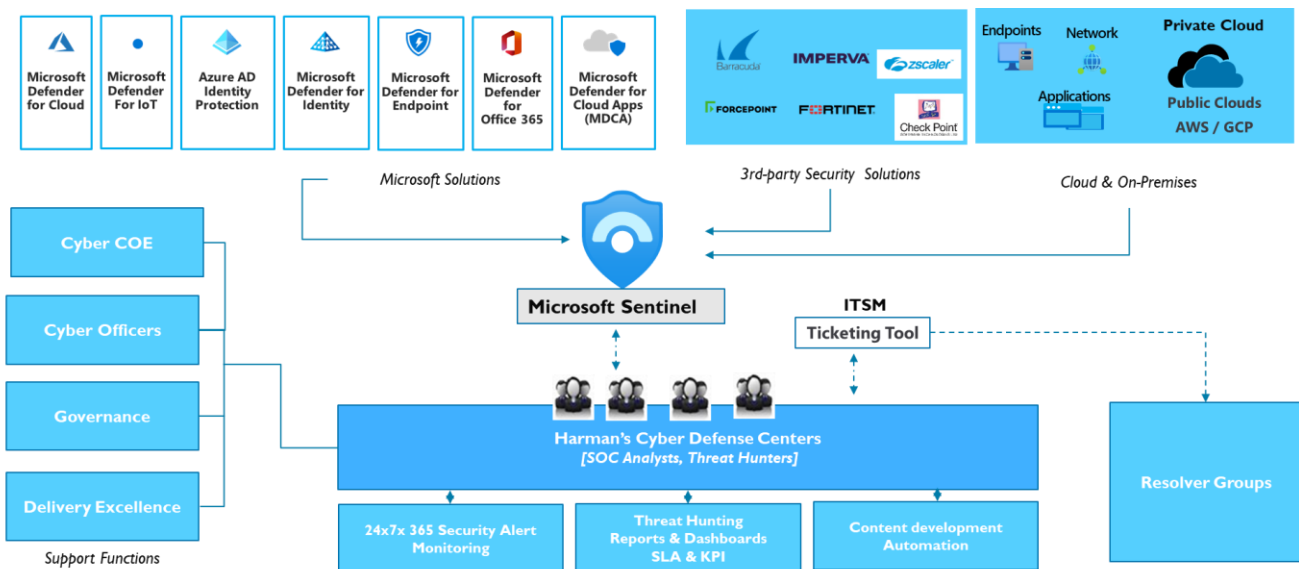

Managed Detection and Response Services

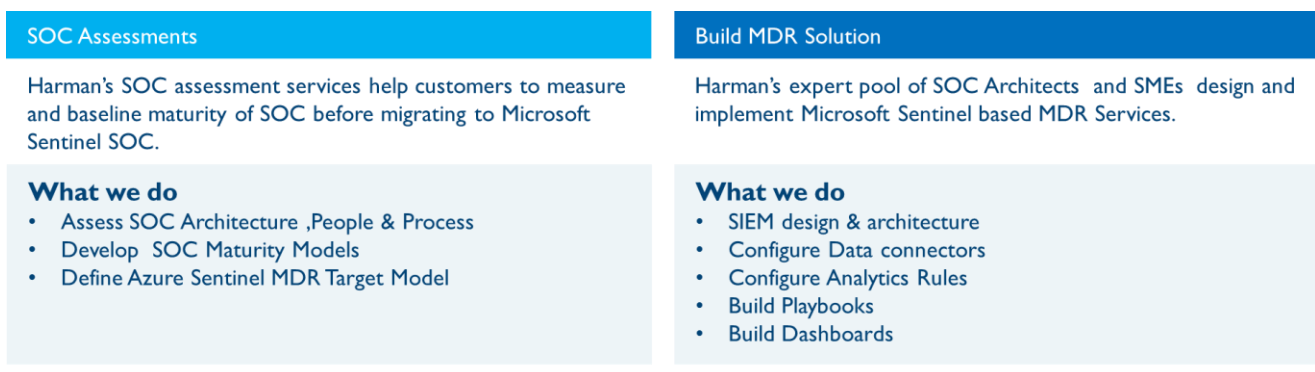

MDR Services with Microsoft Sentinel - NextGen SIEM Capabilities

Advanced Security Operations - End-to-end visibility across enterprise

MDR Transformation Services - Journey to a NextGen SIEM

By utilizing HARMAN MDR service, organizations can streamline their security operations, enhance threat detection and response capabilities and gain better visibility into their overall security posture.
