VAAST®

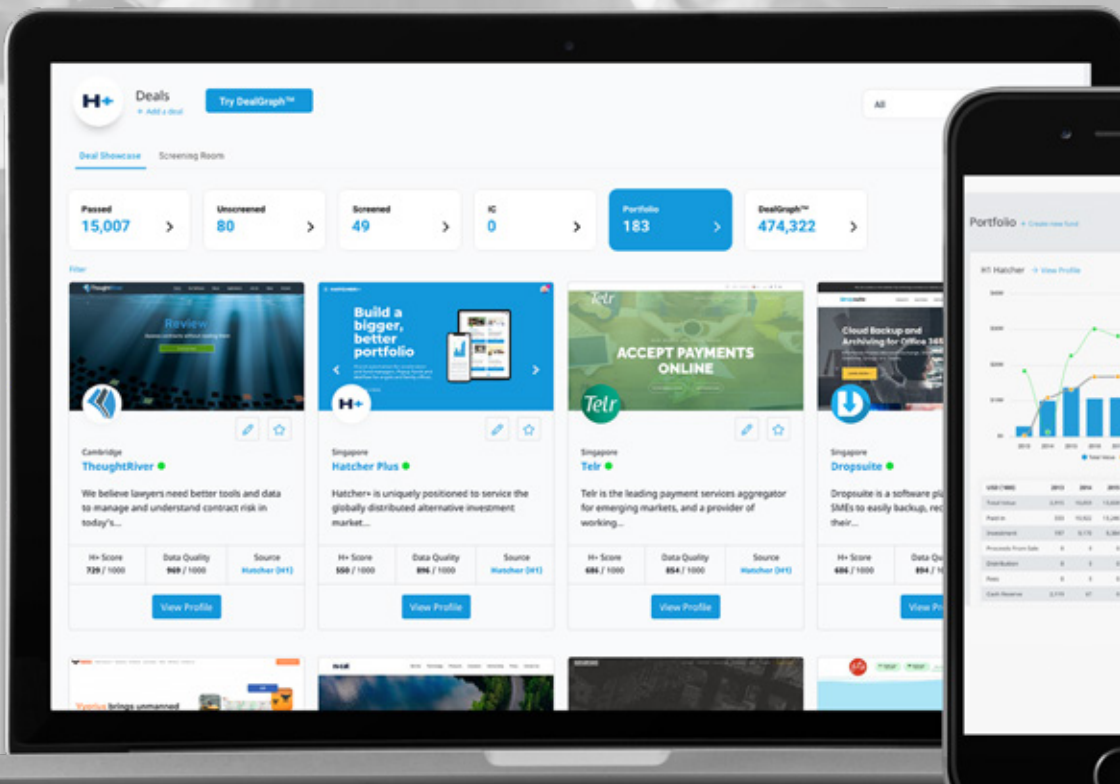

Features for Founders

VAAST® revolutionizes the way founders raise capital. VAAST® is an all-in-one, award-winning platform that combines AI-powered deal origination, advanced fund creation, and portfolio management tools, all designed to support your fundraising journey. With VAAST®, you'll have the ability to streamline your fundraising efforts and reach a global network of potential investors. You'll also receive valuable insights and data-driven recommendations to help inform your funding strategy. **Join the growing community of successful startups who have chosen VAAST® as their trusted partner.**

Hatcher+ VAAST® is an award-winning Venture-as-a-Service Technology platform that combines AI-powered deal origination, advanced fund creation, portfolio management and tools founders need to power their fundraising journey. VAAST™ enables startups to:

- Streamline fundraising with a secure, all-in-one platform that supports the entire funding journey, making it easier and more efficient for startups to raise capital.
- Unlock access to a global network of investors, giving startups the opportunity to reach a wider audience and secure funding from a diverse range of sources.
- Empowers startups with valuable insights and data-driven recommendations, allowing them to make more informed decisions about their funding strategy.

Fundraising for Founders

VAAST® is the ultimate solution for founders looking to secure funding and reach their full potential. Our all-in-one platform is powered by advanced AI technology and is specifically designed to meet the unique needs of growing startups. With VAAST®, you'll get access to a range of tools and resources to help you successfully navigate the funding journey. Whether you're looking to raise capital, gain exposure, or connect with potential investors, VAAST® has got you covered.

Company Profile

We understand the importance of presenting your business in the best possible light to give potential investors a complete and clear picture of your business and its potential. With VAAST®, you'll have access to all the tools you need to create a detailed company profile that includes your business plan, pitch deck, financial projections, market analysis, and more. With this information at your fingertips, you'll be able to showcase your business's strengths, growth potential, and ability to generate a return on investment.

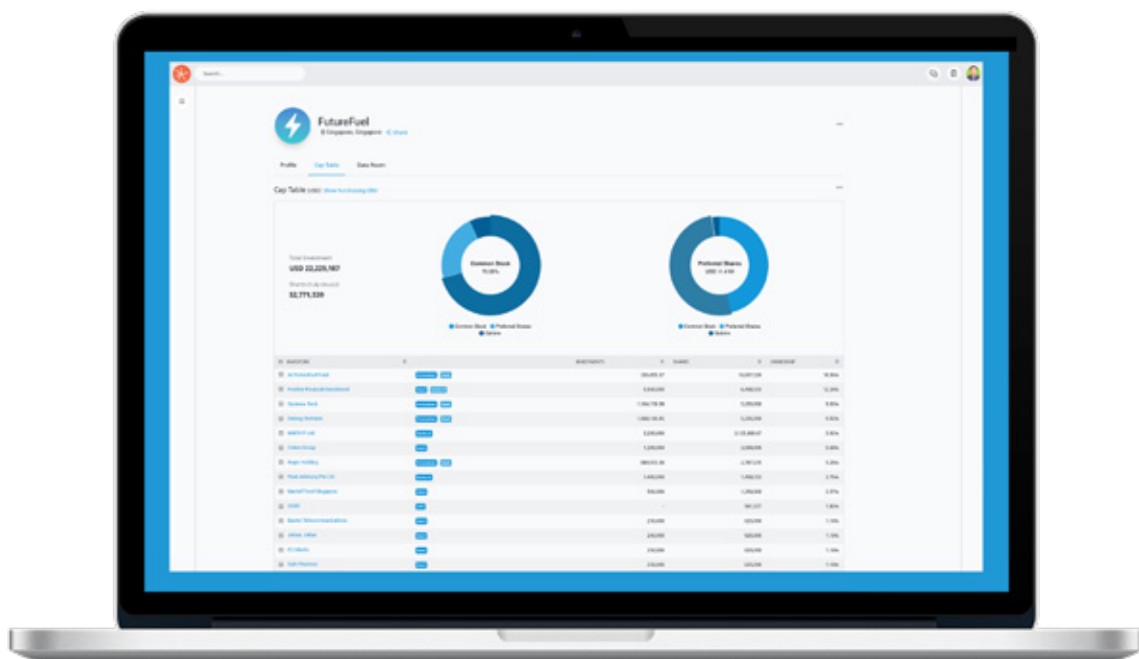

Cap Table

The cap table feature that helps you showcase your assets and ownership structure to potential investors. This feature provides a detailed, up-to-date overview of your company's equity and allows you to easily manage and track your equity distribution and changes over time. With this feature, you can clearly communicate the value of your company to investors and negotiate investment terms with confidence.

Comparative Analytics

Our platform's data-driven comparative analytics report, which leverages our H+ proprietary score, impact investment scoring, mandate matching, and valuation projection analysis, benefits both startups and investors. It helps investors identify and evaluate startups that match their investment mandate and enables them to diversify their portfolio by accessing a global network of high-potential companies that align with their investment goals.

Startups can streamline their fundraising journey by using our mandate matching feature, which matches them with potential investors in our database based on relevant criteria. With these powerful insights, startups can gain a competitive edge and increase their chances of securing funding.

VAAST® features a comprehensive cap table tool helps you showcase your assets and ownership structure to potential investors

Investor Database

Our large investor database that makes it easy for you to connect with potential investors. With this feature, you can showcase your company's contact information, including your email address, phone number, and website, so that interested investors can easily get in touch with you. This helps to streamline the investment process, making it more efficient and convenient for both parties involved. With a clear and accessible contact database, you can ensure that your startup is always top-of-mind with investors.

Data Room

The Data Room feature provides a secure and efficient way for you to communicate with potential investors. You can easily organize and store all your important business documents in one central location. Investors can access your company profile, pitch deck, due diligence reports, financial projections, shareholder updates, and more, ensuring that they have the information they need to make informed investment decisions. This feature not only makes it easier for you to share information with investors, but also provides them with peace of mind knowing that they have access to the latest and most accurate information about your business.

Document Library

Our Document Library is a treasure trove of valuable resources for startups. Access a library filled with templates including investor documents like Simple Agreement for Future Equity (SAFE) notes, convertible agreements, and best examples of

pitch decks from successful startups. This gives you an edge in crafting your own winning pitch, ensuring that it's both polished and professional. The library is constantly updated with new and relevant information, so you'll always have the most up-to-date information at your fingertips.

Fundraising CRM

This tool allows you to manage and track your interactions with potential investors, monitor the progress of your fundraising efforts, and make data-driven decisions to increase your chances of success. With a centralized database of investors, you can easily keep track of who you've talked to, what they're interested in, and where they are in the investment process. Whether you're just starting your fundraising journey or well on your way, our CRM tool will help you stay organized and focused on your goals.

Task Manager

The Task Manager makes it simple for startups to create, assign, and monitor tasks for various organisational functions. It enables startups to set deadlines, assign priorities, and add notes and comments to tasks, making it simple for the entire organization to stay informed of what other departments are working on. The task manager also includes an integrated support system that enables startups to submit tickets and receive assistance from Hatcher+.

VAAST® is an all-in-one platform designed to support and streamline the fundraising process

About Hatcher+

Hatcher+ develops software and data models that support fast fund creation, AI-powered deal analysis, intelligent capital deployment, and real-time management and administration of alternative investment vehicles and strategies. Its two key offerings are the Hatcher FFAST™ (Funds-as-a-Service Technology) and Hatcher VAAST® (Venture-As-A-Service Technology) platform.

Hatcher FFAST™ streamlines end-to-end fund administration with automated data processing, AI-powered deal origination, and a single source of truth for unparalleled efficiency. It enables effortless construction of scalable portfolios, task management, and seamless team coordination, while presenting real-time financial data through visually captivating charts and diagrams. Additionally, FFAST™ simplifies the generation of accurate, on-demand consolidated reports, elevating your fund management capabilities to new heights, while keeping stakeholders informed.

Hatcher VAAST® is an award-winning zero-cost platform designed to empower founders and early-stage investment communities. Our platform provides founders with data-driven analytics, cap table management, a secure data room, and a fundraising CRM to showcase their strengths, connect with a vast global network of investors, and manage their fundraising journey with ease.

Hatcher+ has received a number of high profile global accolades, including placing second out of 476 entries at the UBS Future of Finance Challenge (2021). Hatcher+ was also awarded "Best Venture Management Platform" by APAC-Insider (2021).
