Microsoft Azure

Azure Virtual Desktop Pilot and Heartland Business Systems

Azure Virtual Desktop and the HBS AVD Pilot empower your organization to access desktops and applications from virtually anywhere to support a remote, hybrid workforce with superior security solutions, flexible infrastructure and deployment, and significant cost savings.

Access Windows 10/11 from virtually anywhere

Boost employee productivity inside and outside the office with consistent and reliable access

Maintain full management control

Simplify management, customize, and optimize your virtualization infrastructure on the cloud

Get Azure security and reliability

Protect your data with security you can trust while leveraging the scalability and flexibility of Azure

Optimize costs and pay only for what you use

Unlock tools to make your virtualization infrastructure cost-efficient

---

Azure Virtual Desktop

Quickly deploy virtual desktops and applications to enable secure remote work for a hybrid workplace

---

Deliver the **only multi-session** Windows 10/11 experience

Increase productivity by **22 hours** per person annually

Reduce licensing and infrastructure costs by **34%**

Deploy and scale virtual desktops **in minutes**

	Access Windows 10/11 from virtually anywhere	• **Provide access to Windows 11 and Windows 10** on any device • **Deliver a seamless experience** on Microsoft Office and Microsoft Teams • **Personalize the Windows 10/11 virtual experience** with roaming user profiles
	Maintain full management control	• **Enable GPU accelerated app rendering and encoding** on AVD session hosts • **Empower IT** to specify how desktops are distributed across VMs • **Simplify delivery of company apps to employees** with capabilities for external users
	Get Azure security and reliability	• **Use Azure Active Directory** and Multi-Factor Authentication to secure your virtual desktops • **Deploy your virtual infrastructure** in Azure datacenters around the world • **Provide management and customization options** for IT with services like Azure Monitor
	Optimize costs and pay only for what you use	• **Run multiple desktop sessions** on a single VM with exclusive Windows 10/11 multi-session • **Optimize deployment costs** and scale session host VMs with auto scale • **Use existing Windows and Microsoft 365 licenses** for Windows 10/11 and Microsoft Office

HBS VDI Pilot $1,500*
for Azure Virtual Desktop
* Offer valid for new Microsoft Azure Virtual Desktop customers only

HBS will configure a secure, scalable, Azure Virtual Desktop (AVD) pilot environment that is ready for you to run with! Our expert team will work hand-in-hand with you to build, deploy, and setup management for your environment. **Get ready to scale securely on demand and wow your users!**

HBS VDI Pilot Scope

Consulting	**Configuration**
• Overview of Azure Virtual Desktop • FSLogix overview • Review host sizing requirements • Review Azure Monitor to monitor environment • Microsoft licensing requirements • How to assign users to session hosts • Demonstrate functionality	• Create site-to-site (S2S) VPN Gateway between Azure and on-premises environment, if needed. • Optionally extend Active Directory with a Domain Controller as an IaaS VM into Azure. • Create 1 Session Host, Application Group, and Workspace to facilitate an AVD pilot effort.

Let us help you on your Hybrid cloud journey!

HBS is your Midwest Microsoft Managed partner. Bring your workloads to Azure with confidence, supported with best practice guidance and direct access to Azure engineers, tools, and subsidized services from HBS.
