

HCL-POWEROBJECTS AND DYNAMICS 365: ONLINE READINESS CUSTOMER ASSESSMENT

Thinking more about moving to the cloud but not sure where to start? Let HCL-PowerObjects, an award-winning Microsoft Partner for the last 2 years in Customer Service, guide you through this integral process with a Dynamics 365 Online Readiness Assessment.

What is the D365 Online Readiness Assessment?

It's an automated tool that provides us with an insightful, comprehensive list required for your move to the Cloud. Each organization has unique challenges, so we find it imperative to take a personal approach to eliminate guesswork and help you can make informed decisions as you plan and prepare. We'll analyze your system and then have critical conversations with you so can feel confident about your journey ahead.

What will you receive?

At HCL-PowerObjects, we pride ourselves on customization and personalization – so your report will be unique to you. You'll receive a thorough, fully customized Migration Readiness Assessment Report that describes the opportunities and challenges of migrating your system to the Cloud.

HOW DOES IT WORK?

- 01**  **SCHEDULE** Let's chat! To get started, we need just 30 minutes of your time to discuss the process.
- 02**  **SCAN** At a time of your convenience, HCL-PowerObjects will safely and securely conduct a remote 15-minute scan of your Dynamics 365 and Microsoft Business Applications system – including all customizations, configurations, and integrations – so the report will be personalized to you. (Remember: this is your unique roadmap, so we need to analyze your environment).
- 03**  **ASSESS** After completion, you'll receive a detailed assessment report on the opportunities, challenges, and path for Cloud migration.

Can HCL-PowerObjects help with a cloud license?

Yes! As a trusted Microsoft Partner, HCL-PowerObjects has been named as a Cloud Solution Provider (CSP), which means not only can we guide you down the right licensing path, but we can handle the entire licensing process on your behalf. Benefits of choosing HCL-PowerObjects as your CSP include:

- Break/fix support included in the license cost.
- Monthly licensing model – add/remove licensing as needed (yearly is also available, if preferred).
- Full control to self-manage licenses through HCL-PowerObjects' customer care portal, PowerCare.
- 10% Discount on Dynamics 365 University Offerings

WHY SHOULD MY ORGANIZATION MOVE TO THE CLOUD?

Higher data security

Greater efficiency

Increased scalability

Expanded mobility

Significant cost savings

Safer and quicker disaster recovery

More robust controls
