What is PowerWebTraffic?

Ever wonder who is visiting your website? Combine the power of website tracking analytics with the power of CRM and see who is surfing your site! PowerWebTraffic gives you the ability to see what your customers and potential clients are viewing by collecting website tracking analytics and connecting them to contacts and leads right within your Microsoft Dynamics CRM system.

- Figure out which webpages are getting the most traffic in a quick and easy PowerWebTraffic dashboard.
- Create workflows to correspond with website activities:
    - o Receive email notification when someone visits your site "X" number of times.
    - o Receive email notifications when a contact of a lead is identified.

How Do I Get Started?

Try any of our PowerPack Add-ons FREE for 30 days with no risk and no pressure to commit! There are no setup fees, no long-term contracts (simply month to month), and no credit card information required! Click here to learn more.
