

A Point-of-care Screening Solution

- ✓ 35+ TESTS
- ✓ INSTANT RESULTS
- ✓ E-HEALTH RECORDS

HealthCube XL™

A state of the art screening system which can provide results in 1 sec to 30 minutes for more than 35 tests across various parameters

HealthCube EzDx

Android apps for operator and patients for generation of electronic health records and easy access to reports

SCALABLE ARRAY OF TESTS

INTERNALLY INTEGRATED TESTS

Vitals

Height, Body Impedance Analyser, BMI, Blood Pressure, ECG (12 Lead), Pulse Rate, Oxygen Saturation, and Temperature

Biochemistry & Hematology

Glucose, Hemoglobin, Total Cholesterol, and Uric Acid

Infectious Diseases

COVID-19 (antibody), Malaria, Dengue, Chikungunya, Typhoid, Syphilis, HIV, Hepatitis B, Hepatitis C, and Leptospirosis

Urine Parameters

Protein, Sugar, and Pregnancy

Cardiac & Inflammation Markers

Troponin I, D-Dimer, C-Reactive Protein, and Procalcitonin

EXTERNALLY INTEGRATED DEVICES & TESTS

WBC Differential Count, HbA1c and Lipid Profile tests can be performed using additional modules. Integrated with Fetal Doppler, Digital Stethoscope, Digital Weighing Scale, and Spirometer, Dermoscope and Otoscope. HealthCube's future road map includes tests for cancer markers and reproductive health.

Tests time consumption & diseases/conditions addressed

Parameters	Tests	Diseases/conditions addressed	Result generation timing
Vitals	Blood Pressure	Hypertension	50 sec
	Pulse Oximetry	Cardiovascular diseases	15 sec
	Temperature	Generic health condition	1 - 2 sec
	Height		1 - 2 sec
	Weight		1 - 2 sec
	Digital stethoscope		15 sec
	BMI		1 - 2 sec
	12 lead ECG	Cardiovascular diseases	55 sec
Bio-Chemistry	Hemoglobin	Anemia	15 sec
	Blood Sugar	Diabetes	7 sec
	Uric Acid	Gout	15 sec
	Cholesterol	Cardiovascular diseases & obesity	30 sec
Infectious	Malaria	Malaria	20 mins
	Hepatitis B	Hepatitis B	20 mins
	Hepatitis C	Hepatitis C	15 mins
	Dengue	Dengue	10 mins
	Chikungunya	Chikungunya	15 mins
	Typhoid	Typhoid	15 mins
	Syphilis	Syphilis	20 mins
	HIV	HIV	20 mins
	Leptospirosis	Leptospirosis	20 mins
Cardiac & Inflammation Markers	Troponin I	Cardiovascular diseases	10 - 15 mins
	D-Dimer	Blood clotting condition	12 - 15 sec
	CRP	Chronic inflammatory diseases	10 mins
	Pro-Calcitonin	Serious bacterial infection	10 mins
Urine Parameters	Pregnancy	Pregnancy	5-10 mins
	Protein	Kidney disease	1 min
	Sugar	Diabetes	1 min
Hematology	WBC Differential Count	Leukopenia/Leukocytosis	3 - 5 mins
	HbA1c	Diabetes	3 mins
	Lipid Profile	Cardiovascular disease/Obesity	3 - 5 mins
Covid-19 risk management	Antibody	Covid-19	15 mins
Fetal Health	Fetal Doppler	Fetal heart beat	5-10 mins
Item	Weight	Item	Weight
XL device	1.7 Kg	LAB in a BAG	3.5 Kg
Device Dimension - 250 x 200 x 65 mm			

* Device is factory calibrated and does not require any further calibrations.

A SMART POCT SOLUTION

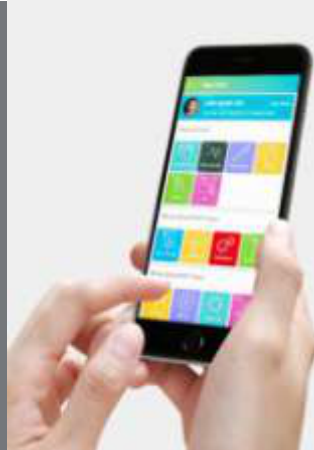

Simple To Use

- App with pictorial instructions
- Tests using finger-prick blood Sample
- No manual intervention

Accurate & Reliable

- HealthCubed Clinically tested
- ISO 13485 & CE Certified indicating conformity to the safety performance standards of European Union
- CDSCO approved

Technologically Advanced

- Platforms for digital reports and analytics
- Data stored on secure cloud
- Real time data backup

Mobile

- Works on power bank
- Weighs only 1.7 kgs
- Thoughtfully aggregated, easy to carry

Rapid

- Results in minutes
- Instant report generation
- Reduces time from diagnosis to treatment

A LAB IN A BAG

1 Million Beneficiaries

2.5 Million Diagnostics
