

# THEMIS IA

Your Easy Button to  
**Delivering a Superior Office365 Experience**  
 With a Rock-Solid Information Architecture

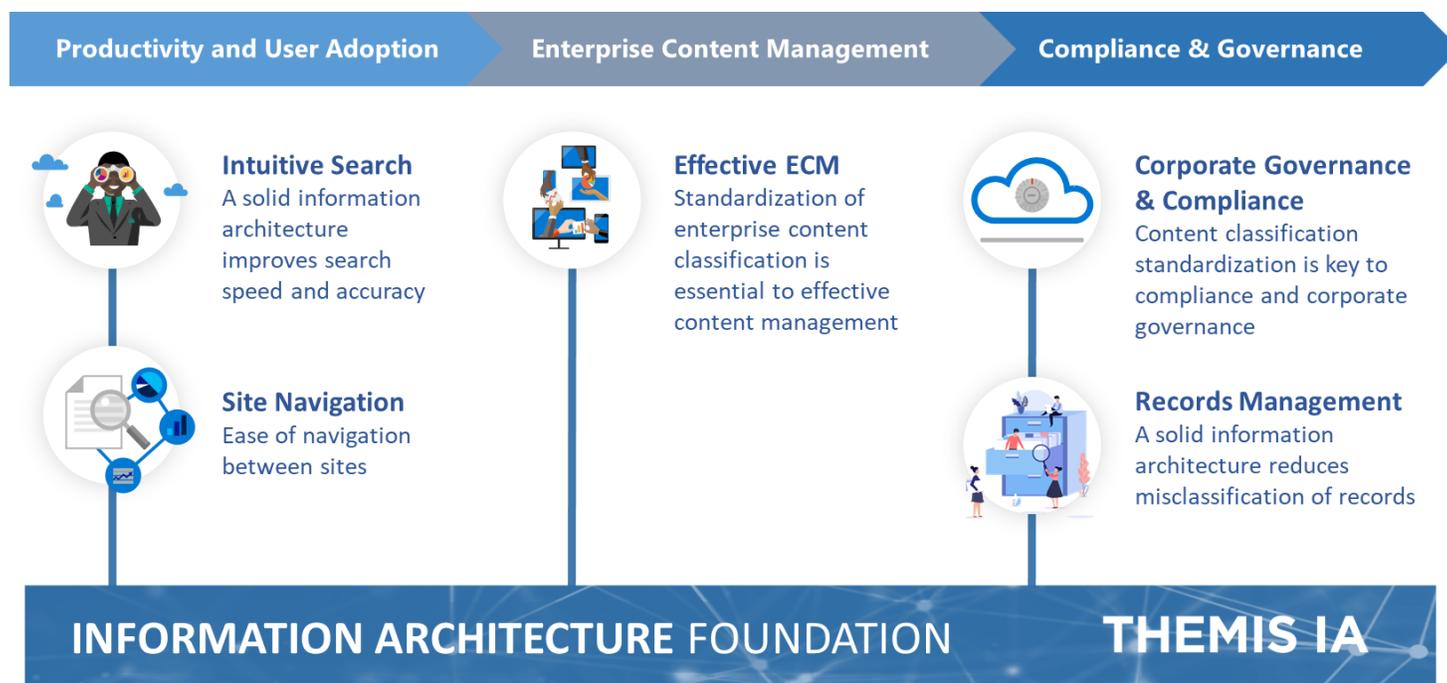

## YOUR INFORMATION ARCHITECTURE IS MISSION CRITICAL

A good information architecture can be the difference between a SharePoint and Office 365 system that is broadly accepted by users and one that sits on the shelf.

**A good information architecture enhances content findability for the users and provides content lifecycle management for the organization.** A good information architecture is the gateway to a great corporate governance program.

## OFFICE 365 SUCCESS STARTS WITH A STRONG INFORMATION ARCHITECTURE

Workflow

Accelerated Deployment

Ongoing IA Management

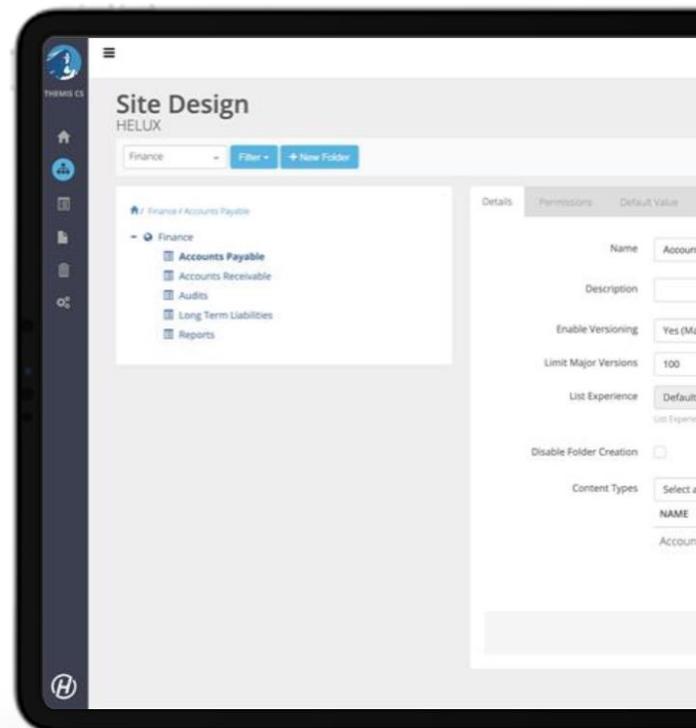

## THEMIS IA OVERVIEW

THEMIS IA turns the complex, time-intensive task of building and maintaining a robust information architecture into an automated, intelligence process.

- Cut your deployment times by 50% or more
- Error-free deployments

THEMIS IA's step by step workflow makes it easy to build, collect team feedback, test, and deploy your critical assets:

- Site Structure
- Navigation
- Content Types and Fields (how content is tagged)
- Security

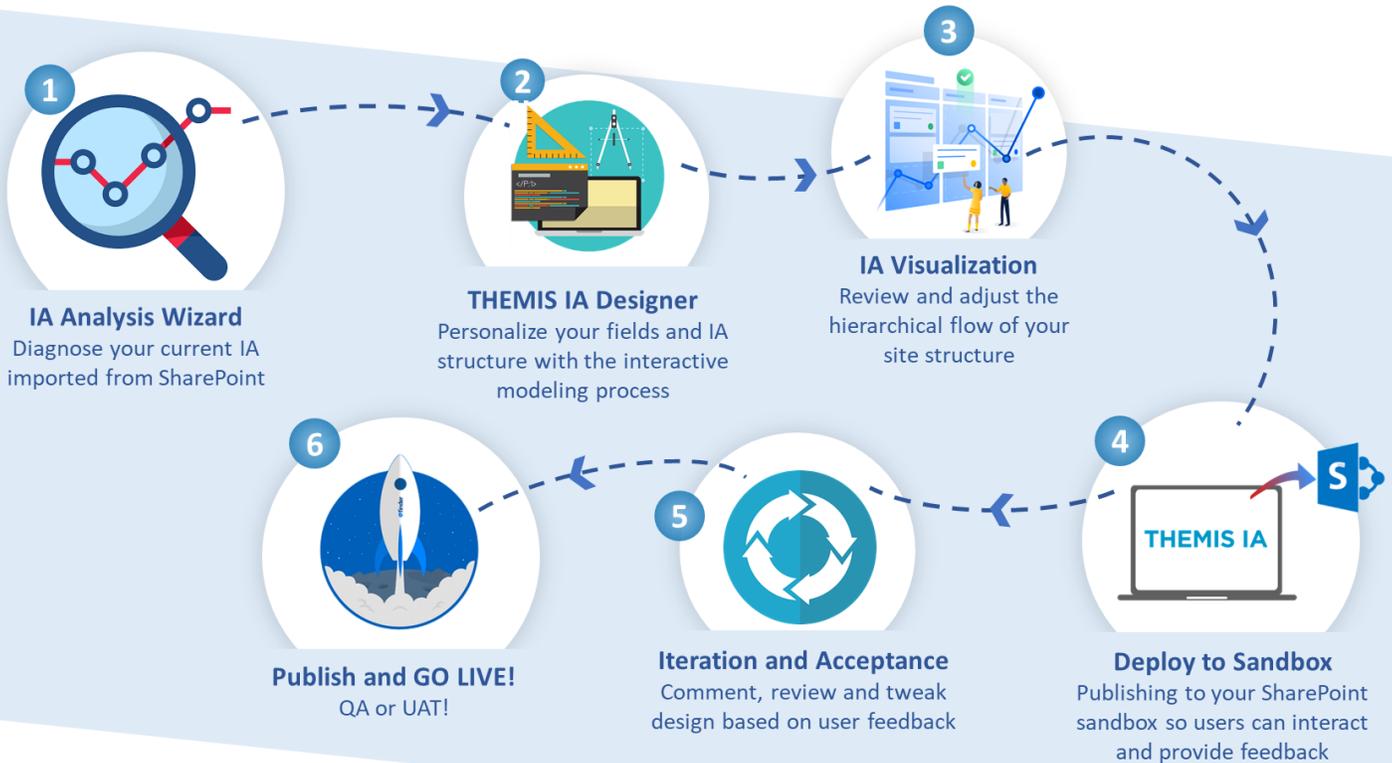

“THEMIS IA helped our Information Managers and Business Owners eliminate the laborious processes, errors, and guesswork of manually setting up and managing an information architecture. “

SUN DAI Director of Records

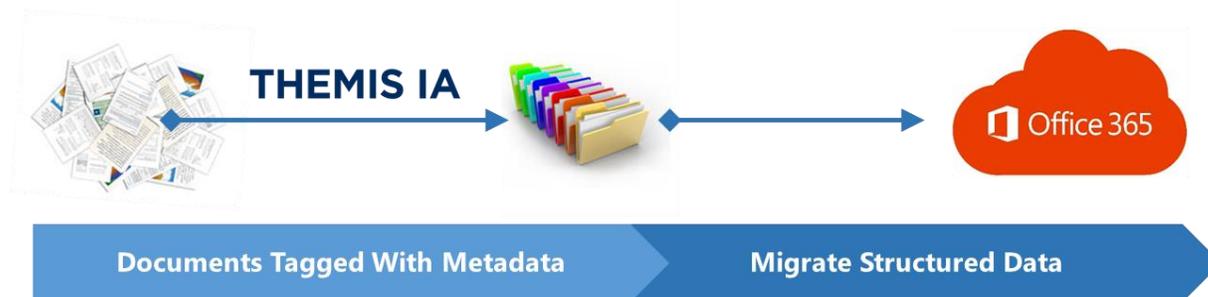

## THE THEMIS IA PROCESS

## INFORMATION ARCHITECTURE IS KEY TO MIGRATION

Start your migration with THEMIS IA to classify your unstructured data and ensure your new environment isn't inheriting your old mess.

### Benefits of THEMIS IA for Migration
