# ABOUT
# HELUX

HELUX is dedicated to making your information management experience - Friendly. Simple. Powerful.

# ABOUT
# THEMIS IA

THEMIS IA is a user-friendly platform that allows a content owner to design, build and publish their information architecture.

## PRODUCTS

THEMIS CS is the new industry standard for content services and digital workplace transformation. Using AI, THEMIS CS drives innovative solutions for information architecture and records management that aligns with SharePoint and Office 365.

## SERVICES

HELUX specializes in enhancing your SharePoint and Office 365 experience. Our goal is to provide the perfect balance between the ease of use that users expect with the compliance and governance that your organization needs.

▶ THEMIS IA allows users to create custom sites, libraries, lists, taxonomies, content types and permissions in a user-friendly platform - no more Excel spreadsheets.

▶ THEMIS IA allows users to re-use and re-purpose information management artefacts across their organization - instead of manually recreating them.

▶ THEMIS IA allows users to import blueprints that fast-tracks their information architecture and matches industry standards using machine learning and artificial intelligence.

▶ THEMIS IA allows users to publish their custom sites, libraries, lists, content types and permissions directly to SharePoint - without having to code or hire developers.

As a Microsoft Preferred Partner in Content Services, HELUX specializes in information architecture and design, regulatory compliance and governance, and records management.
