

Implementation Services

Extend your team's capabilities to build custom location solutions

Get the expertise and guidance you need to ensure your custom solution is developed, integrated and deployed to market —on time, on budget and with the highest quality standards. Benefit from Professional Services years of experience and deep understanding of custom software development and deployment across industries.

Benefits

- Deliver cost-effective, optimized solutions while reducing vendor complexity.
- Deploy complex business solutions with flexibility regardless of your team's capacity.
- Overcome technology limitations with strategic, expert-led services.
- Deliver at the highest standards by partnering with location technology experts.

Navigation

Get a complete navigation solution for embedded IVI platforms or mobile devices. Customize UX and map design, get data and services from HERE and third-party providers, all with live updates and global coverage.

Intelligent Speed Assistance (ISA)

Seamlessly integrate ISA according to EU General Safety Regulation 2 or beyond. Ensure compliance and a high-quality user experience with cost-effective, end-to-end implementation led by HERE experts.

Mobile app development

Get an end-to-end custom app development service that simplifies creation, provides a customizable user experience, and delivers a scalable and secure mobile solution built off HERE's SDK framework.

Custom location services

Get customized, safe and accurate routing and search solutions designed specifically for your business needs. Integrate your proprietary data with HERE's industry-leading APIs or managed it securely on-premises.

Custom implementation

For more unique custom location solutions, our HERE consultants can develop and implement a tailored statement of work to get you to your business outcomes as fast as possible.

All Implementation services can include discovery, design, implementation, deployment, operations and —based on a custom scope of work tailored to your needs.

What our customers achieve with Implementation Services

British multinational grocery retailer built a custom routing solution to guide 2,000+ trucks from depots to stores using risk-aware routing. The solution reduced delays, saved fuel, and helped avoid fines.

- ✓ 3.5% reduction in average kilometers driven
- ✓ 10% fewer delay thanks to more precise routing

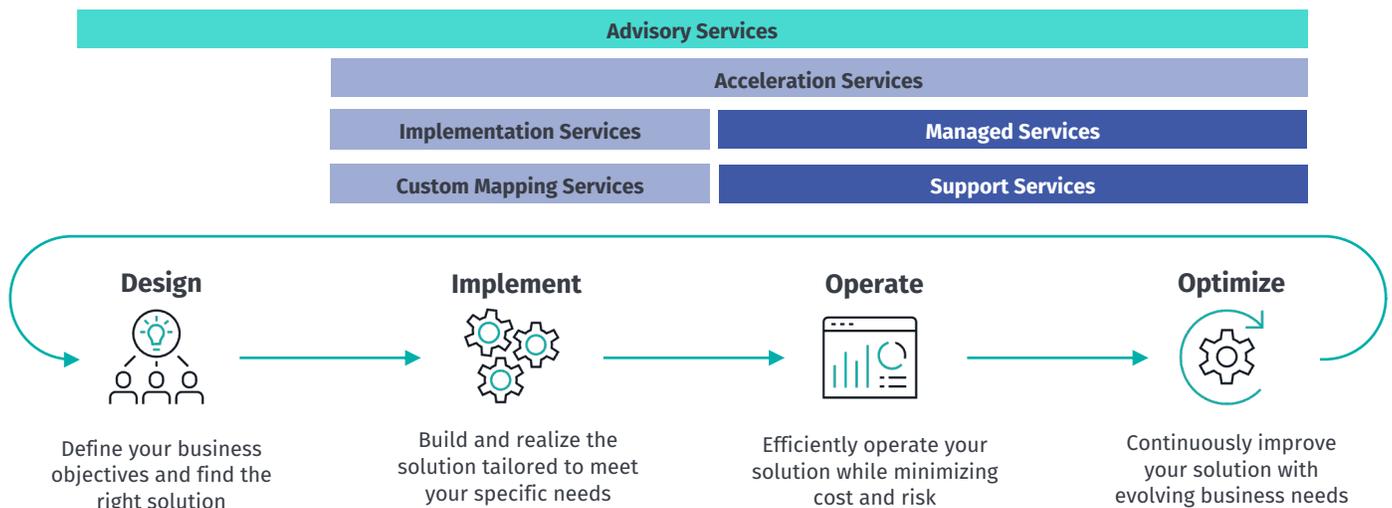

"We chose HERE because of the quality of its location data and services and the ease of integration into our embedded and cloud-based systems."

- ✓ 5% reduction in CO₂ emissions achieved through Predictive Powertrain Control

A leading waste management company launched a driver navigation solution using custom attributes and routing. The result: fewer bridge strikes and higher satisfaction for both drivers and customers.

- ✓ 60% of previous bridge strikes avoided with a PS-enabled HNAV solution

Expert guidance at every step

Boost innovation and differentiation

Drive co-innovation, spark new ideas and leverage HERE's deep location expertise for your competitive edge.

Design custom solutions

Solve complex location challenges with custom solutions designed for your business.

Develop and deploy faster

Accelerate time to value with seamless integration of HERE's products and location services into your solutions.

Reduce risk and complexity

Minimize implementation risks and identify potential issues earlier, while simplifying your location solutions.

Get peace of mind

Get fast, reliable, and proactive support tailored to your business needs.
