DRUPAL 7 NES

by **hero**devs

STAY SECURE ON DRUPAL 7 WITHOUT MIGRATING

If you're worried about not being able to migrate away from Drupal 7 by January 5, 2025, Drupal 7 NES is right for you. We'll ensure your project is secure and supported for as long as you need to complete the migration.

- Scanning for incompatibilities with servers and package dependencies
- Continuous source code scanning for vulnerabilities in your network
- Customer portal to report issues

ROOTED IN THE DRUPAL COMMUNITY

With Drupal 7 NES, you're supported by members of the Drupal security team and core maintainers of Drupal 7. The HeroDevs product team works directly with these community leaders to identify, test, and fix security issues in Drupal 7 – ensuring that you're getting the best EOL support around.

Greg Knaddison
Drupal Security Team Member

Fabian Franz
Drupal 7 Core Committer and Framework Manager

Jess (xjm)
Drupal Core Release Manager

This is a **drop in replacement for Drupal 7** that is going to be continually updated with security patches and it only takes **5 minutes** to switch to our version

DRUPAL 7 MODULES STAY COMPATIBLE

Modules are the powerhouse of Drupal.

With Drupal 7 Never-Ending Support, HeroDevs will fix security and compatibility issues found in key modules you depend on. Curious about how we do it? Talk to one of our experts today.
