JQUERY NES

Never-Ending Support for jQuery by **herodevs**

THE PROBLEM WE SOLVE

90% Almost 90% of the ~1.9 billion websites worldwide use the open source software jQuery. One third of those – over three-quarters of a billion sites – require an upgrade.

This is a **drop in replacement for jQuery v1 & v2** that is going to be continually updated with security patches and it only takes **5 minutes** to switch to our version

STAY SECURE ON JQUERY V1 & V2 WITHOUT MIGRATING

Not ready to migrate away from older versions of jQuery? With jQuery NES, you can stay there forever.

Your company can keep running your website(s) on jQuery v1 or v2 with the peace of mind that your software stack is fully supported and secured. No migration necessary
