

# NODE.JS NES

Never-Ending Support for Node.js by  **herodevs**

## HERODEVS PARTNERS WITH THE OPENJS FOUNDATION

HeroDevs is the founding member of the OpenJS Foundation's **Ecosystem Sustainability Program (ESP)** which was developed to address critical issues within the JavaScript community – particularly those related to maintenance and sustainability of open-source projects that have reached end-of-life. HeroDevs is also a Gold Member of the OpenJS Foundation.

## STAY SECURE ON NODE.JS WITHOUT MIGRATING

**Not ready to migrate away from older versions of Node.js?** With Node.js NES, you can stay there forever. Your company can keep running your website(s) on Node.js with the peace of mind that your software stack is fully supported and secured. No migration necessary

Security Fixes

Compatibility Fixes

SLA Compliance

Team of Experts

Easy to Install

Security Updates for the following versions of Node.js: 12, 14, 16, 18

### LATEST CVE FIXES

By purchasing Node.js Never-Ending Support, you're ensuring that your website stays secure. As more CVEs on Node and dependent libraries (such as OpenSSL, libhttp, etc.) are discovered, you can rest easy knowing HeroDevs has remediated those issues before they're ever announced publicly.

This is a **drop-in-replacement for Node.js** that is going to be continually updated with security patches and with little difficulty can switch to Node.js NES

## TRUSTED BY 600+ CLIENTS

We've worked with companies across a variety of industries, from government and public sector to healthcare and higher education.
