HEXAWARE

Autosys to Airflow

Modernize Your Job Scheduling Environment

Worried about Autosys Licensing costs and Flexibility?

Autosys licensing, support, and infrastructure costs continue to increase, putting pressure on IT budgets and limiting cloud flexibility.
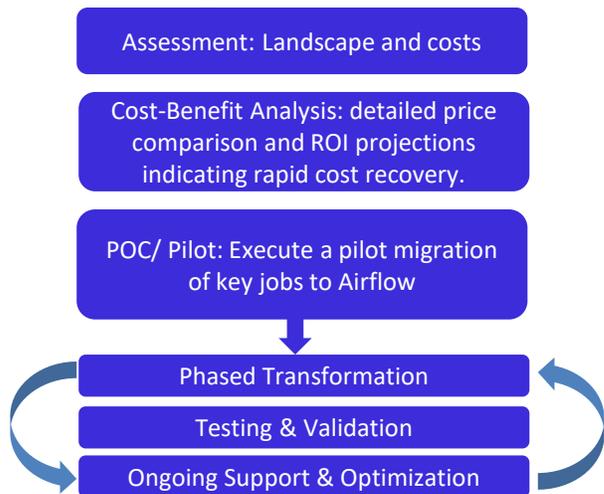

But this challenge presents a powerful opportunity to modernize by moving to Apache Airflow, a proven, open-source, cloud-ready job scheduling alternative alternative

Hexaware helps organizations transition from Autosys to Airflow through a structured migration and modernization approach focused on **continuity, performance,** and **measurable business value**.

Why Move from Autosys to Airflow?

Eliminate	• high licensing & maintenance costs	• vendor lock-in	• Performance constraints
Boost	• cloud-nativity & flexibility	• Transformation cost recovery in less than a year • Tech Debt Elimination	• Change cycles & cross system workflows

Move fast with Hexaware to ace your transformation

- Assessment: Landscape and costs
- Cost-Benefit Analysis: detailed price comparison and ROI projections indicating rapid cost recovery.
- POC/ Pilot: Execute a pilot migration of key jobs to Airflow
- Phased Transformation
- Testing & Validation
- Ongoing Support & Optimization

Next Steps? – Join our Pilot Program

- Schedule a 1 week discovery workshop
- Conduct initial automated assessment and deliver detailed report in the same week
- Execute Pilot for 100 select jobs within 2-3 weeks
- Review Pilot outcomes and finalize full migration roadmap within a week
