

Oracle to PostgreSQL

Accelerate Your database Modernization

Worried about Oracle Licensing costs and Flexibility?

Oracle licensing, support, and infrastructure costs continue to increase, putting pressure on IT budgets and limiting cloud flexibility.

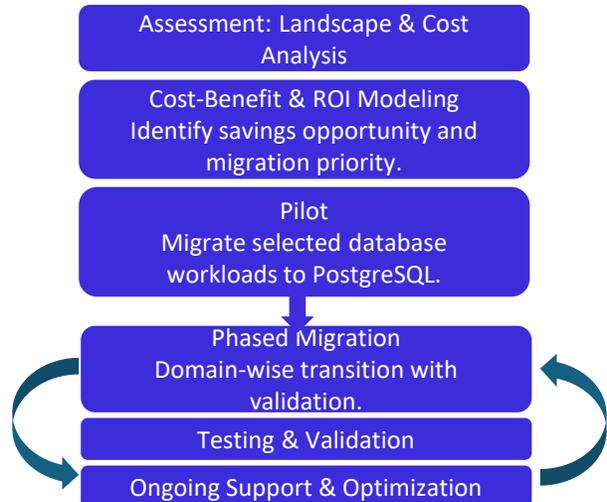

But this challenge presents a powerful opportunity to modernize your data platform by moving to PostgreSQL, a proven, open-source, cloud-ready enterprise database.

Hexaware helps organizations transition from Oracle to PostgreSQL through a structured migration and modernization approach focused on **continuity, performance, and measurable business value.**

Why Move from Oracle to PostgreSQL?

Eliminate	<ul style="list-style-type: none"> Costly proprietary licensing model vendor lock-in Operational overhead for maintenance Legacy platform constraints
Boost	<ul style="list-style-type: none"> cloud-native scalability Faster innovation and development Long-term operational savings Easier integration with modern platforms

Move fast with Hexaware to ace your transformation

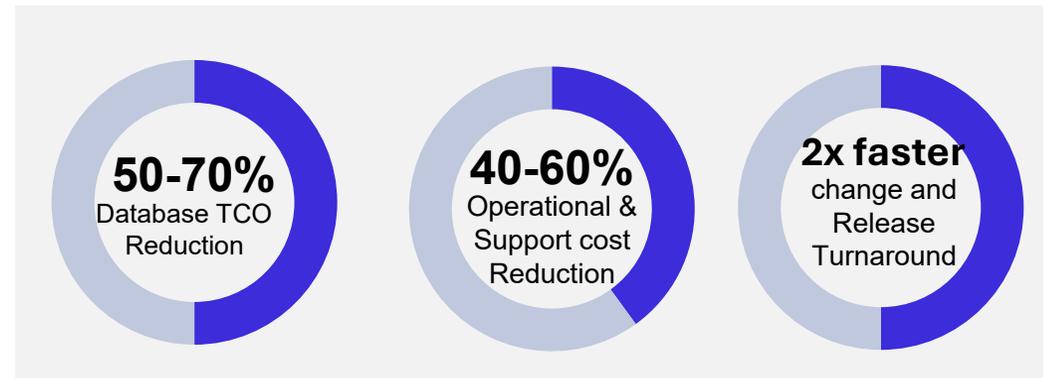

Next Steps? – Join our Pilot Program

- Perform automated schema and dependency assessment and deliver detailed migration report
- Execute Pilot for 3 databases within 2-3 weeks
- Validate data accuracy and performance, then finalize the enterprise migration roadmap in a week

Assessment +3 databases migration
\$50,000 USD
