HEXAWARE

TIBCO to Java Springboot

Accelerate Your Middleware Modernization

Worried about TIBCO Licensing costs and Flexibility?

TIBCO licensing, support, and infrastructure costs continue to increase, putting pressure on IT budgets and limiting cloud flexibility.
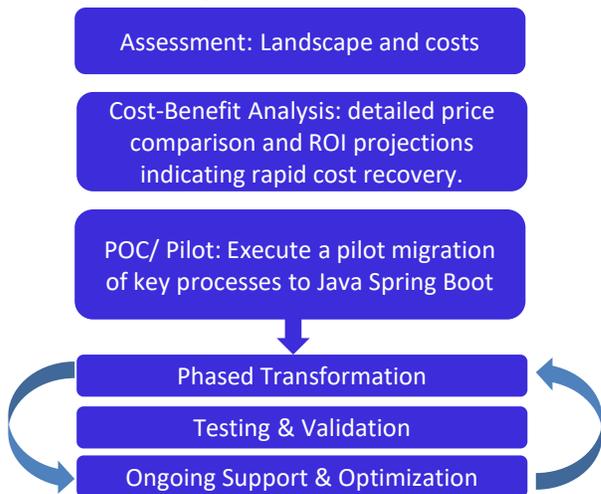

But this challenge presents a powerful opportunity to modernize your middleware by moving to Java Springboot, a proven, open-source, cloud-ready middleware alternative

Hexaware helps organizations transition from TIBCO to Java Springboot through a structured migration and modernization approach focused on **continuity, performance,** and **measurable business value**.

Why Move from TIBCO to Java Spring Boot?

| Eliminate	• high licensing & maintenance costs	• vendor lock-in	• Performance constraints
Boost	• cloud-nativity & flexibility	• Transformation cost recovery in less than a year	• Tech Debt Elimination • AI/ML integration

Move fast with Hexaware to ace your transformation

- Assessment: Landscape and costs
- Cost-Benefit Analysis: detailed price comparison and ROI projections indicating rapid cost recovery.
- POC/ Pilot: Execute a pilot migration of key processes to Java Spring Boot
- Phased Transformation
- Testing & Validation
- Ongoing Support & Optimization

Next Steps? – Join our Pilot Program

- Schedule a 1 week discovery workshop
- Conduct initial automated assessment and deliver detailed report in the same week
- Execute Pilot for 10 select processes within 2-3 weeks
- Review Pilot outcomes and finalize full migration roadmap within a week
