

Future proof your business by moving from **SQL Server to PostgreSQL**

Accelerate your Database Modernization

Challenges with SQL Server

Legacy

Proprietary database architecture

High licensing & annual support **costs**

Limited **cloud-native readiness**

Scalability **constraints** for modern cloud workloads

Vendor lock-in & limited flexibility

Our Recommendations

Modernize proprietary SQL Server databases to PostgreSQL

Re-Architect schemas and database logic for open-source platforms

Leverage AI powered Amaze® for automated database re-platforming
