Empowering Learning with AI in
The Modern Digital Workplace

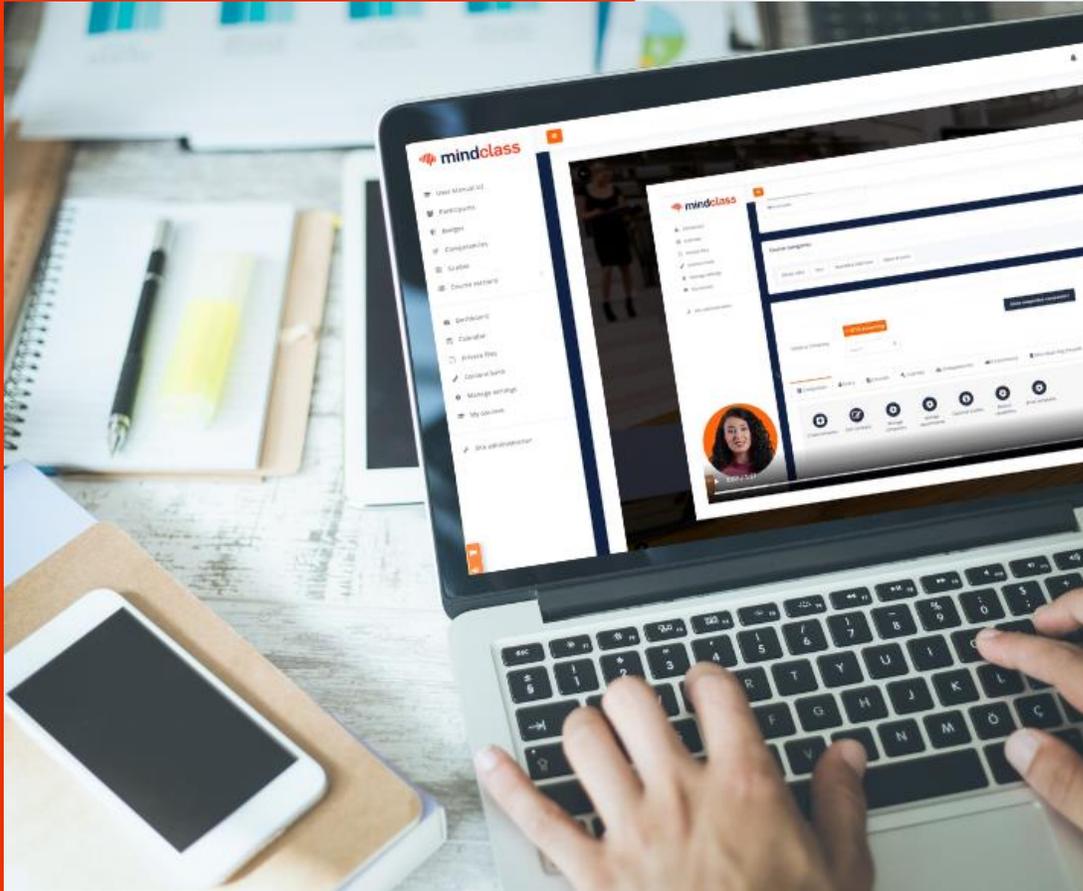

Video? Check it out [here!](#)

mindclass is empowering employees and students to achieve their best results through consistent learning and development.

Accessible from **mobile and desktop**, mindclass is proving a tool for companies and institutions for continuous learning and development of their people.

The challenge

Continuous learning and development of the employees means to achieve:

- Education digitalization
- Highly trained workforce
- People retention incentive
- Measurable business and academic results
- Communication, transparency and trust

...and much more.

Main benefits

- ✓ Fully capable learning management solution
- ✓ Audience content targeting through competencies
- ✓ Performance monitoring using reports, tests, certificates
- ✓ Automated user management for seamless personnel changes
- ✓ Inclusion of multiple entities (countries) on a single platform

Differentiators

- ✓ Custom Modules designed to address business needs
- ✓ Availability for external users
- ✓ Usable on all devices
- ✓ Scalability with multi-tenancy on a single platform
- ✓ Integration with Microsoft Teams for ease of usage.

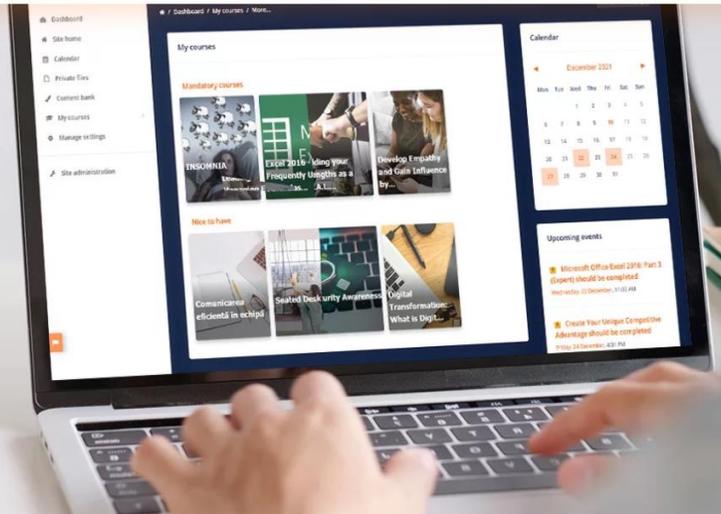

Easy access for 360° view on your students' know-how adoption and certification
