

# MDP 10

**Fast Track to a Modern Data Platform**

**10 WEEKS**

## Summary

Use the Modern Data Platform as a catalyst for change in the way that you create, consume, and communicate information. The Modern Data Platform is the only enterprise-grade, hybrid and cloud solution built for powerful, scalable, and affordable self-service analytics.

## Key Features

- Full PaaS solution
- Power of the Microsoft Data Platform
- Infrastructure as Code (Dev, UAT and Prod environments)
- Solution deployed to production environment
- Fit-for-purpose solution with ability to scale
- Provides the foundation on which to build a robust data and analytics environment

## Deliverables

- Up to 5 Power BI Reports in a single dashboard
- Data sourcing from up to 2 systems
- DevOps practices (Azure DevOps, CI/CD)
- Agile Project Management
- Client team enablement
- Build a foundation for future value-added increments
- Development of backlog to continue to drive value
- Templates to speed construction
