

# Copilot Studio Discovery Workshop and PoC

3 - 4 Week Workshop & PoC

CONTACT US today to get started!

## Overview

Jumpstart your company's automation transformation with Hitachi Solutions Copilot Studio Discovery Workshop and PoC. This targeted initiative demonstrates how AI-driven chatbots and low-code autonomous agents can enhance your business operations, improve customer and employee experiences, and boost productivity.

Copilot Studio is revolutionizing business processes, optimizing workflows, and multiplying efficiency across departments. With our expert-led workshops, you'll identify key areas where AI can have the most impact, empowering a select group to pilot solutions that drive measurable improvements to your bottom line.

## Why Take Action?

Overwhelmed by high operational costs? Facing slow service response times? Looking to scale automation effortlessly? Here's how our Copilot Studio Discovery Workshop and PoC can help:

- **Operational Efficiency:** Automate repetitive tasks to free up your team for strategic initiatives.
- **Accelerated Processes:** AI-driven tools can rapidly handle inquiries, execute workflows, and integrate with enterprise applications, improving response times and service delivery.
- **Enhanced Decision-Making:** Leverage AI for smarter decision-making and task execution, providing your team with accurate, timely information and solutions.

## Outcomes

Our team will deliver a comprehensive Copilot Studio Discovery Workshop and PoC with a structured 3-phase process, resulting in the following deliverables:

1. Discovery Workshop | 2. Pilot Design & Configuration | 3. Deployment Strategy & Training
- We'll outline recommended use cases for AI-driven chatbots and autonomous agents, and identify necessary organizational changes to achieve your goals.
  - Risk assessment – evaluate your current automation readiness and develop a strategy to support AI integration.
  - Launch a pilot program for up to 25 users to experience the benefits firsthand.
  - Receive a Professional Services Proposal for full-scale deployment, including Managed Services for continuous support.
  - If we identify areas where you're not fully leveraging AI capabilities, our Hitachi Solutions team is ready to assist!
