

The background of the slide is a blurred, high-angle photograph of a busy sidewalk with many people walking. The motion blur gives a sense of activity and movement. On the right side of the image, there is a large, semi-transparent circular graphic that contains a smaller, concentric circle, creating a tunnel-like or magnifying effect. The overall color scheme is dominated by the red header and footer, with the central image in muted, desaturated tones.

Horsoway

**Discovery and Analysis
services for Dynamics 365
Business Central projects**

Our comprehensive **Discovery and Analysis service** is designed to ensure a seamless and successful implementation of **Microsoft Dynamics 365 Business Central**. This phase is crucial for understanding your business needs, identifying key requirements, and laying the groundwork for a tailored solution that drives efficiency and growth.

Initial Consultation:

- Conduct in-depth meetings with stakeholders to understand business objectives and challenges.
- Gather detailed information about current processes, systems, and pain points.

Business Process Review:

- Analyze existing workflows and identify areas for improvement.
- Map out current business processes and compare them with best practices.

Requirements Gathering:

- Collaborate with your team to define functional and technical requirements.
- Prioritize requirements based on business impact and feasibility.

Gap Analysis:

- Identify gaps between current capabilities and desired outcomes.
- Provide recommendations for bridging these gaps with Business Central 365 features.

Solution Design:

- Develop a high-level solution design tailored to your business needs.
- Outline the proposed system architecture and integration points.

Project Planning:

- Create a detailed project plan with timelines, milestones, and resource allocation.
- Define roles and responsibilities for the implementation phase.

We propose a **7-days** service to gather the scope, obtain the right information and propose a plan, according to the key services explained in this document.

2 days of kickoff and customer people interview:

- Project manager
- Process Owners
- Key users

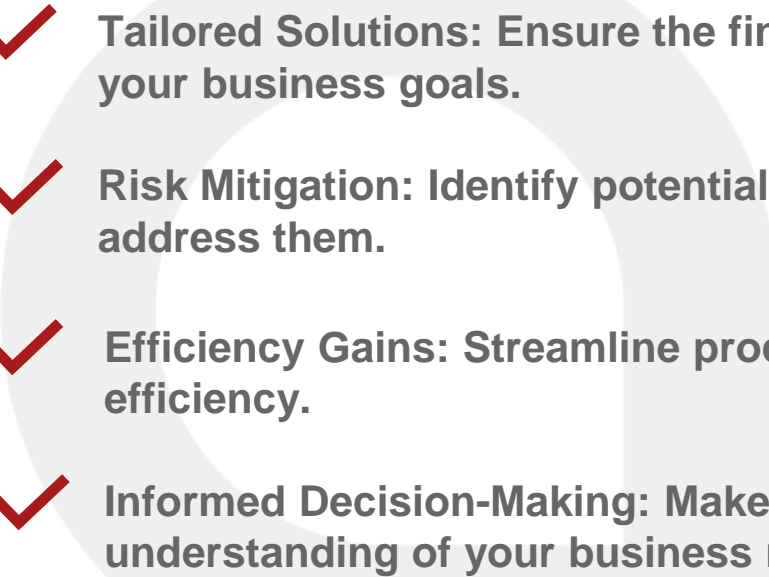

3 days of Solution Design

- Our Analysis Team

2 days of Solution review and approval

- Customer team and Our analysis team

Interviews and reviews with the customer people can be done in full remote.

-
