- ✓ Individual users and admins are always in control as Copilot inherits your security, compliance, and privacy policies set up in Microsoft 365.

- ✓ Your data never leaves its secure partition and is never used for training.

■ Microsoft

Digital debt costs us innovation

In a climate where the pace and volume of work has increased exponentially, people can't keep up—slowing innovation.[1] Generative AI provides automation to remove repetitive and time-consuming tasks, allowing employees to focus more time on strategic work.

**Start to build your business case for Copilot for Microsoft 365**

At $30 per month per license, Copilot for Microsoft 365 only needs to save an employee 54 mins to break even. While breaking even is nice, we know that is not enough to justify an investment.

How much time can you save with Copilot for Microsoft 365?

Saving just 2.5 hours/month yields an ROI of 180%*

*At $70,000 employee cost per year, 54 minutes per month = $30 of employee's time.

Hrs. saved/mo.	ROI
2.5 hrs.	180%
2.0 hrs.	124%
1.5 hrs.	68%
1 hr.	12%
