

HPT MANAGED SECURITY SERVICES

HPT Managed Security Services (HMSS): Safeguarding Your Digital Frontier

HPT Vietnam Corporation proudly introduces its cutting-edge Managed Security Services (HMSS). This innovative solution is crafted to empower organizations, reducing cyber-attack risks, fortifying compliance posture, and ensuring seamless business operations.

Key Features of HMSS

- **Comprehensive Security Monitoring:**
 - Continuous surveillance on Microsoft 365, Azure, Microsoft Defender, and Azure Sentinel.
 - Integration with HPT Security Operations Center (HSOC) for 24x7 security monitoring.
- **Compliance Assurance:**
 - Aligns with ISO 27001, HIPPA, and GDPR standards.
 - Proactive measures to enhance and actively protect against cyber threats.
- **Cybersecurity Workshops:**
 - Hands-on workshops with Microsoft APAC CSA team.
 - Practical application of cybersecurity skills in realistic, mission-specific virtual environments.
- **Microsoft Technology Integration:**
 - Utilizes Azure Sentinel, Microsoft Defender for Endpoint, and core monitoring technology of HPT.
 - Bridges the gap between cyber concepts and practical cybersecurity skills.

HSOC: Elevating Cybersecurity Defenses

HSOC enhances organizational security by offering key capabilities:

- Real-Time Security Threat Analytics:
 - Enriches raw data for instant usability.
 - Provides insights for quick threat identification and resolution.
- Powerful HPT Collector:
 - Integrates with all log sources, technology-independent.
 - Ensures comprehensive data collection for effective analysis.
- Centralized Management Console:
 - Offers an end-to-end view of your security environment.
 - Facilitates streamlined management for a proactive approach.
- Simple and Flexible Interfaces:
 - Easy deployment and monitoring initiation.
 - Automated and customizable Playbook/Incident Handling procedures.
- Machine Learning for Threat Detection:
 - Predicts and detects abnormal behavior in collected logs.
 - Employs powerful correlation rules for advanced threat identification.
- In-House R&D Team:
 - Conducts Threat Hunting and Incident Response. ○ Leverages 30+ Threat Intelligence Sources for proactive defense.

Why Choose HMSS by HPT Vietnam Corporation?

- **Proactive Risk Mitigation:** Detect and mitigate risks in real-time.
- **Compliance Excellence:** Adherence to global standards for information security.
- **Hands-On Cybersecurity Training:** Bridge the gap between theory and practical cybersecurity skills.
- **Integrated Microsoft Technology:** Benefit from the combined strength of Azure Sentinel, Microsoft Defender, and HPT's core monitoring technology.
