

NextGen Windows Workshop

Workshop highlights

-  **Focus** on priorities, initiatives & key influences in your hybrid work & end-user computing strategy
-  **Learn** about end-user computing strategies, Windows 11, and Windows 365 to drive endpoint modernization with your customers
-  **Work** together on showcasing Cloud PC provisioning & management with Windows 365 in a production environment
-  **Plan** next steps on how we can work together

Modern endpoint management protects the organization while enabling employees to work on their own terms. They can work anywhere and at any time, and do so as well as they would in the office, thus improving both satisfaction and productivity.

In our new world of work the endpoint is the new workplace, and hybrid work is driving the endpoint strategy. The shift to remote and hybrid work represents a shift in how we think about providing people with the tools they need.

90% of the organizations* anticipate to utilize cloud platform capacity at a higher rate than ever before. As a result, optimizing existing investments in cloud solutions remains a top priority.

Providing employees with the most recent technology is important for many companies, according to 77% of those surveyed*. Users should be able to use the devices they prefer while IT has the capacity to keep them secure...

80% of companies* intend to invest in new and emerging technologies. This opens the discussion on how to deploy, manage, and secure these new endpoints in the most effective way.

Why you should attend

The NextGen Windows Workshop enables you to convince your business decision-makers of the business value of Microsoft's cloud solutions for end-user computing. The solutions include Windows 365, Windows on Azure Virtual Desktop, Microsoft Managed Desktop, Windows 11 Enterprise, and Microsoft Endpoint Manager. Attending the workshop allows you:

What to expect

The next generation of Windows represents a shift in how our customers are solving end-user computing challenges. Across Information Workers, Frontline Workers, and Temporary / Elastic workforces, our customers are searching for the latest and most innovative solutions to address these challenges.

We'll work with you to:

- Better understand when and how to leverage Cloud PCs with Windows 365
- How to manage virtual endpoints across Windows 365 and Azure Virtual Desktop the best way possible
- HPT Vietnam Corporation Leveraging Windows 11 - the most secure OS yet - to enable hybrid work for all employees
- Implementing best practices for endpoint management with Microsoft Endpoint Manager

Who should attend

The workshop is intended for security decision-makers such as:

- Chief Information Security Officer (CISO)
- IT Security
- Chief Security Officer (CSO)
- Security Architect
- Chief Information Officer (CIO)
- IT Operations

HPT Vietnam Corporation and Microsoft 10+ partnership empowers mutual clients with the benefits of world-class software based on Microsoft 365. Atos manages and enables supports for 1.7 million Microsoft 365 hybrid users globally and has extensive experience in implementing Microsoft 365 in existing landscapes across all industries. This combination together with and a large number of Microsoft 365 configuration experts and Microsoft 365 security certifications, qualifies HPT Vietnam Corporation as a trusted partner and ensures the flexible transformation, integration, and application of HPT Microsoft solutions.
