

Accelerate Your Cloud Adoption Journey with **Huco**

Bring your digital dreams to life with us

Huco's InnovApp/ ModApp framework addresses best practices in modern DevOps & Cloud-Native tools and practices in turn enabling agility in application delivery across the entire enterprise.

What we offer

Huco's DevOps & Cloud-Native services help you optimize your development and delivery pipelines securely. Our enterprise cloud architecture expertise and DevOps strategy enables you to bring your innovations to market faster.

Our InnovApp/ ModApp Framework spans the entire DevOps Transformation journey starting from:

- Designing the Future State
- Tooling and Automation
- Architecture Consulting
- Service Improvements
- iDoc – Managed Services

From ideation to design to implementation to management, Huco assists with sharpening your Cloud- Native based innovative solution. Huco helps to create a cloud native culture & roadmap through the Huco DevOps Garage & InnovApp & ModApp framework & enhance application experience with microservices, Kubernetes, & DevSecOps.

See what customers are saying:

Good work done by HUCO team in this entire project, appreciate all the extended support provided to fulfill the requirements (both in scope and out-of-scope work). Infact, we did not hear any word from you stating that it is out of scope work, you supported us in all the ways. The way you handled migration of the environment from old to new was amazing part. Mostly online & seamless migration, Infact business did not feel that we did such major migration project, near to zero user interruption in migration task.

IT Head and Transformation Manager – Government Entity in Dubai

Why Huco for DevOps & Cloud-Native?

Who are we?

Huco, a tech-consulting & services firm, is assisting global organizations to build, run, manage, and secure their applications for the multi-cloud economy.
