

**HUDi**

ABOUT US

HUDI is a consulting company created by enthusiasts who are constantly looking for the innovation and excellency. We started working on digital transformation more than 10 years ago by connecting complementary skills such as mobile computing, data analytics, modern apps and digital collaboration. We like to have a very extensive view of collaborations and partnerships to offer more and more consistency to our customers.

To date, HUDI, with a staff of about 50 employees, has a success story of more than 460 projects on 200 customers. For us, knowledge is a fundamental aspect of the work, and for this reason we can count on over 1,200 days of annual training for our employees.

BUSINESS UNIT

# 4 Business Unit

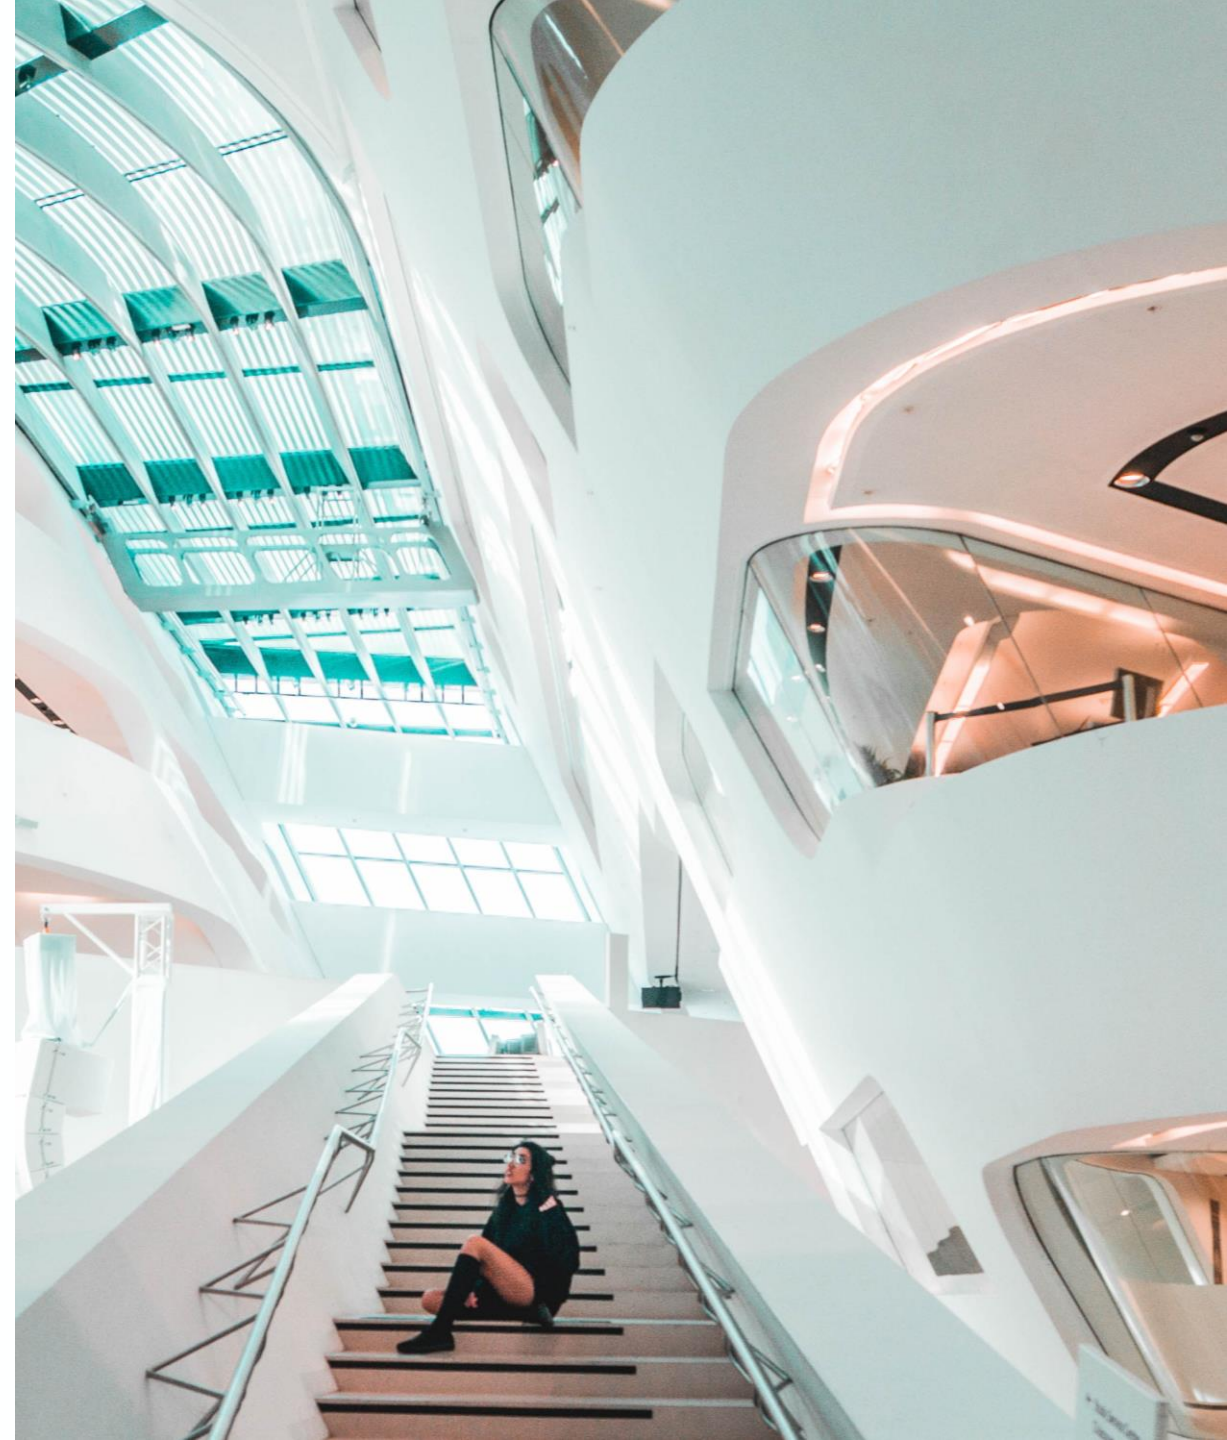

## Modern workplace

Today, Modern Workplace is the ability to work from anywhere and at any time, individually or as a team, as long as you have the right information and tools.

Digital collaboration reduces time, risk and misunderstanding and increases efficiency and effectiveness.

We help you get the most benefits from implementing the best technologies by ensuring the necessary levels of security and compliance of information.

## Business solutions

At HUDI, we help companies identify the best and most innovative business opportunities to improve their performance by connecting technology and strategic choices.

With the Business Solution concept, we offer solutions that support the management of the entire business organization and ensure sustainable growth for the future.

## Data and AI

Data is everywhere, it's of any kind, relevance, and volume.

For businesses, the difference today is to understand and use them carefully, managing quantities once unthinkable, with the help of AI and machine learning.

HUDI invests in creating a Data Scientist structure, building strong relationships with the most representative universities, and fielding a team of qualified resources with a passion for enabling technologies.

## Modern App

Modern web applications must meet increasingly demanding needs and expectations. Today, web apps must be readily available, secure, and can be used on any device or screen of any size.

More complex scenarios every day must therefore be managed safely with comprehensive and fulfilling user experiences.

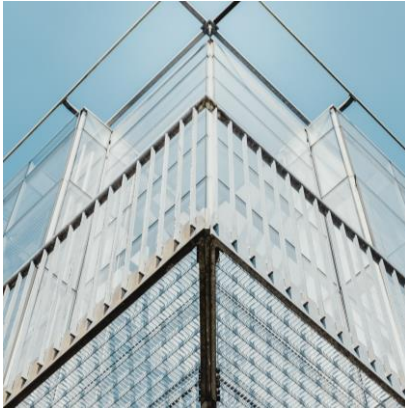

# Know How

Digital technologies are an enabling factor only when they integrate with an industry know-how profiled in every market. HUDI is involved every day in a process of selection, update and promotion with continuous market research for innovative solutions in the fields:

01 - Banking

02 - Insurance

03 – Fashion Retail

04 - Manufacturing
