

HUMAN RISKS

Total Overview - Always Updated

www.humanrisks.com

Integrated Security Risk Management

Human Risks gives security professionals an updated overview of risk levels, security measures, incidents and internal audits.

Increase Efficiency

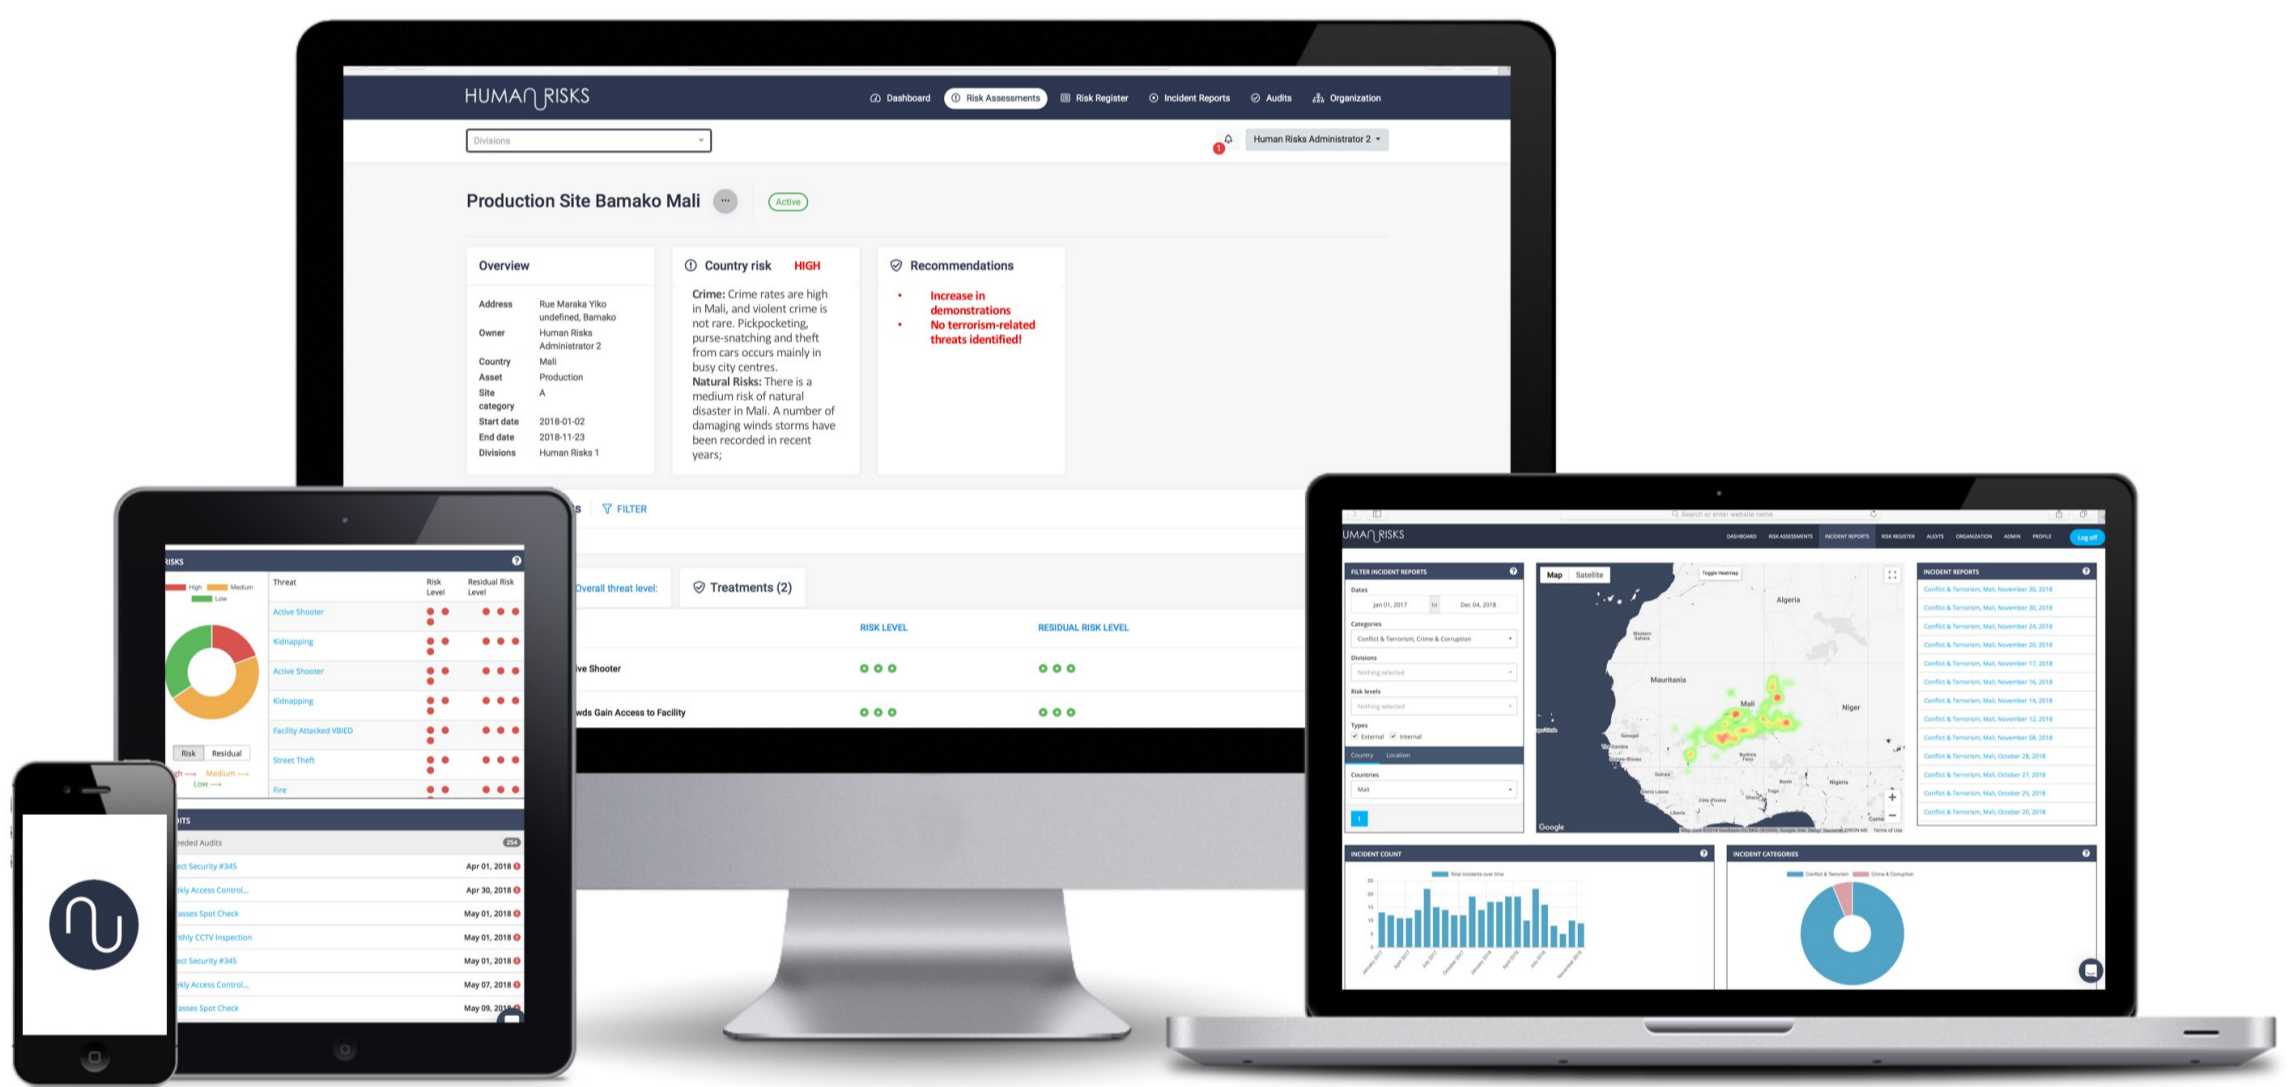

- Reduce time creating, updating and reporting on risks
- Reduce security spending as you can adjust security level with risk level
- Automate manual tasks
- Generate updated reports

Seamless Compliance

- Automatically match requirements with security controls
- Manage internal audits
- Measure and document security KPIs
- Turn any industry standard into templates and document compliance

Automation

- Turn security controls into scalable templates you can distribute across your organisation
- Match site category, -type and threat with measures automatically

Key Features

Risk Assessments

Assess threat- & risk level. Turn your threat library into templates and scale across the organisation.

Download templates from Human Risks.

Measures

Assess the effect of measures and see the effect on risk levels.

Turn your own content into templates or download examples from Human Risks.

Incidents

Report incidents, track history and access our live data feed of global security alerts to stay updated on events within your sites as they happen.

Audits

Create, manage and delegate recurring tasks with our audit-feature. Complete audits in our mobile app and get an overview of compliance, corrective measures and deviations.

TESTIMONIAL

»Human Risks enables us to decentralise the security risk management process, which helps us empower local management to take ownership. It increases the effect of what we are doing and reduces our costs substantially.

»Human Risks has really improved our overview of all security related challenges and solutions.

»Human Risks saves us valuable time, which I can spend on important tasks and not tedious manual tasks.

Mads Pærregaard

Founder & CEO

Mads' background as an army officer led to roles within the security industry. First as a security adviser in the Ministry of Foreign Affairs followed by a career in the private sector as Head of Security and Director of Operations. He has earned an Executive MBA from Henley Business School where his thesis was the founding market research of what today is Human Risks.
