

HydroX AI Compliance Scanner

The First Open LLM Risk Evaluator

The screenshot displays the HydroX AI Auditor interface. On the left is a sidebar with navigation links: Home, History, Learning, API, and Manage. The main content area is titled "Auditor BETA" and includes a description: "Evaluate the security of your website Chatbots, models, and code under several compliance frameworks." Below this is a form to "Enter website URL" with a "DETECT" button. A row of model selection buttons follows, including GPT-5 (marked "NEW"), Claude Sonnet 4, Grok, Gemini-2.5-pro, and DeepSeek. A "SIMULATE" button is also present. Handwritten blue arrows and text are overlaid on the image: an arrow from the "Manage" link points to the word "ANALYZE"; an arrow from the "DETECT" button points to the word "PROTECT"; and an arrow from the "SIMULATE" button points to the word "SIMULATE". The footer contains the copyright notice "© 2025 Hydrox AI v0.1.0" and a link to "Explore AI Security Risks".
