# The main components of 24edu

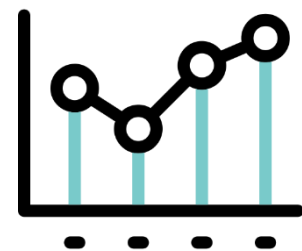

## Electronic catalog

- Notes, absences, evaluation sheets, observations, behavior
- Automatic calculations of averages
- Immediate access for parents and students
- Printing the catalog in classic format

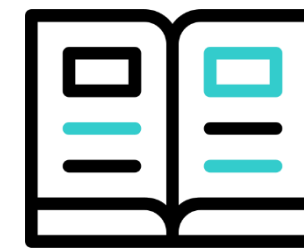

## Schedule and schedule generation

- It respects the structure of the Romanian education system
- It automatically generates the school schedule according to enrollment

## Reports and statistics

The solution automatically generates reports for the Inspectorate, as well as statistics on the evolution or use of the application.

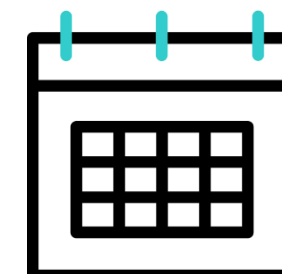

## Teme, materiale suport, lectii online

Teachers can upload audio, video or supporting documents for students to the solution, they can give online lessons and submit assignments on which they will later provide feedback.

## Communication

The application allows direct communication between all users in a school: parents - teachers - students

## Calendar planning

It allows efficient planning of school events, extracurricular events and internal meetings or with parents.

# 24edu users

## Teachers

Easily add notes, absences, observations, homework, video materials, support lessons online and communicate directly with parents and students

## Students

Can see their school situation, the feedback received from teachers, they can solve it and submit homework online, they have access to books from the library online or materials added by their teachers.

## Parents

They have real-time access to school situation, observations teachers and all the information entered in the platform for their child. They can communicate directly with the child's teachers.

The accounts can be accessed both in the web platform and in the dedicated applications for phone / tablet.

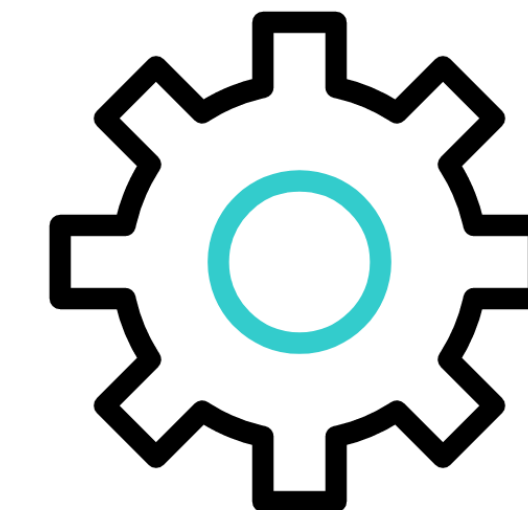

The Director and the Secretariat have dedicated accounts, with content adapted to the needs of each function.

24edu allows data import from SIIR or excel

# The school administrator

Configure the school and have access to everything that happens in the platform

## 01 School Configuration

Enter general and contact information visible to all school users.

## 02 Teachers and subjects

Set the teachers in the school and the subjects taught. A unique code is automatically generated for each teacher.

## 03 Classes and Children

The list of children of a class can be imported from excel. Unique codes are automatically generated for children and parents.

## 06 Monitoring

The administrator has access to detailed statistical data regarding the degree of use of the application by teachers, parents and students.

## 05 Parent Access Codes

Parents receive from the administrator a code based on which they create their personal 24edu accounts

## 04 Schedule generation

Based on some settings and preferences, the timetable for the whole school is automatically generated.

If you request, the entire configuration can be done by the 24edu team
