Empower your team to build innovative business apps with IBM's 2-day Power Apps Workshop

WHY IBM

IBM is a Gold Microsoft Partner providing Microsoft solutions and services tailored to your business. We are your trusted Digital Reinvention partner to drive innovation and meaningful business impact through cognitive, data, mobile and the cloud.

Power Apps enables anyone, from business users to professional developers, to build sophisticated apps with little to no-coding required.

WHAT TO EXPECT

IBM's experienced instructors will guide your team through a 2-day workshop to discover the possibilities of Microsoft Power Apps and leverage its capabilities to address your distinct business needs.

DAY 1

Power Apps crash-course

> Introduction to the Power Platform

> Hands-on activities utilising a range of Power Platform tools
  - Canvas and Model-Driven app creation
  - Data configuration and integration
  - Automated workflow integration

DAY 2

Power Apps in your business

> Engage in collaborative, team-driven workshops guided by IBM experts

> Define business needs and app creation opportunities

> Plan and rapidly build a solution with the help of certified IBM facilitators
