Planning Analytics as a Service

Getting started with IBM Planning Analytics as a Service Purchased through the Azure Marketplace

Thank you for purchasing IBM Planning Analytics as a Service though the Azure Marketplace. Shortly, you will receive an email notification confirming your purchase from IBM SaaS (service@saas.ibm.com) which will include instructions on how to gain access to your SaaS subscription.

Provisioning an IBM Planning Analytics as a Service Instance

Provisioning of your instance is a quick and easy self-serve process, though the IBM SaaS Console.

The Subscription Owner who receives the email will be the user that is able to complete the steps to deploy the software. Then, other users can be invited to access to the product through Planning Analytics Workspace Administration.

For a more detailed look at onboarding to Planning Analytics as a Service, please visit and join the Planning Analytics TechXchange Community.

To learn about IBM Planning Analytics as a Service, please visit our product documentation.

If you have any questions about your account or purchase, please reach out to IBM Support.

Best Regards,

The IBM Planning Analytics as a Service Team
