

IBM StreamSets

Thank you for purchasing IBM StreamSets SaaS through the Azure Marketplace!

Please give us a few days to get your IBM StreamSets environment set up and provisioned for you to start using to build your data pipelines.

In a few days, you will receive your welcome email which will contain all the details needed to start using StreamSets SaaS. There will be no set up or configuration needed, just log in and you can have a pipeline running in less than 5 minutes by following the in-app prompts.

To learn about IBM StreamSets SaaS, please visit our documentation.
