Our Expertise

Partial Case Studies

Client from Health Care Industry

- USA based Client is one of the Major Eye Care Software Provider having Core Modules like EHR, Image and Practice Management
- Client wanted Cloud IBN to Migrate their Current Infrastructure from Private Data Center as it did not have scalability /compliances To Microsoft Azure. Cloud IBN them provide Complete Migration, Managed and Advisory Services for their Products Hosted on IaaS and PaaS with HiPPA compliance

Solution Overview

- Security Components- Configured and Manage Active Directory, Sophos & Barracuda WAF, End Point DLP, SQL Audit, and HER data Encryption
- Performed VAPT Test and jointly performed security changes as per report
- Azure IaaS and Azure PaaS (Web App & Azure SQL) Infrastructure Advisory and Managed Services
- Cost Optimization Advisory Services

Benefits Observed from Cloud IBN Solution and Services

- Scalable & SLA Drive High uptime Infrastructure
- Secured HiPAA & Hitech complaint Infrastructure
- 24'7 Proactive Management Support by Cloud IBN Azure Certified expert team
- Significant reduction in ongoing IT infrastructure and operations costs

Partial Case Studies

Client is Information Security Provider

- Client is Information Security Architecture and Strategy from USA and India
- Client wanted secured access to Desktop based Application for Valid Users only

CloudIBN Solution Overview

- CloudIBN proposed and Configured and synchronised Azure AD with on Premises Active Directory with Multi- Factor Authentication and Site to Site VPN
- Deployed and Configured Windows 10 Virtual Desktop for users to access Application securely
- Implemented Data Security Policy like Data Copy etc
- Configured Other Azure Services Backups & Azure Monitor

Benefits Observed from Cloud IBN Solution and Services

- Scalable & SLA Drive High uptime Infrastructure
- Secured HiPAA & Hitech complaint Infrastructure
- 24'7 Proactive Management Support by Cloud IBN Azure Certified expert team
- Significant reduction in ongoing IT infrastructure and operations costs

Partial Case Studies

Client is Complete Internet Security Provider India & Europe

Client wanted Scalable & secure Infrastructure with Highly Available database cluster and Global application Infrastructure to comply Local data compliance with least latency

CloudIBN Solution Overview

- Propose Microsoft Azure Global data center supported Client with Technical Advisory, Billing & 24*7 Managed Services
- MY SQL Percona Highly Available Multi Write Cluster
- Highly available & Load Balanced Web Server with Global Traffic Manager having Azure Infrastructure in Various Countries

Benefits Observed from Cloud IBN Solution and Services

- Scalable & SLA Drive High uptime Infrastructure
- Secured and complaint Infrastructure
- 24'7 Proactive Management Support by Cloud IBN Azure Certified expert team
- Dynamic scalability of applications based on an increase in end-user concurrency
