Efficient e-shop management with Dynamics 365

ABOUT Dynamics 365 – nopCommerce solution:

Solution integrates entities in Dynamics 365 with data objects in Open Source nopCommerce platform.

WHAT WE OFFER

Solution integrates entities in Dynamics 365 with data objects in Open Source nopCommerce platform. All customers, contacts, orders, price lists, products and much more are integrated with relevant objects in e-shop platform. It allows to manage product with pictures, descriptions, categories and product variants. In backward streams is integrated common order process ready for data mining in Dynamics 365 applications.

See what customers are saying:

"Before pandemic seasons we decided moving our business into cloud environment. It helps us to continue to provide services to our clients due several lock downs."

– Hana Stündlová, Managing Director, Fun in Pragues.r.o.
