# Office Experience and Workplace Management

## Enable a Flexible Workplace and Modernize Your Facilities

ICONICS is an award-winning independent software provider offering real-time visualization, HMI/SCADA, energy management, fault detection, manufacturing intelligence, IoT and a suite of analytics solutions for building automation and operational excellence. Microsoft has recognized ICONICS seven times Partner of the Year award winner and manages ICONICS as a co-sell partner.

## What we offer

ICONICS' cutting-edge workplace solution (Intelligent Building Software Stack – IBSS) allows organizations to manage and promote a flexible workplace, providing applications that deliver a unified user experience, help improve employee productivity, and drive optimization of operations and real estate.

IBSS provides easy integration and interoperability with property technology solutions and IT platforms. Avoid multiple siloed solutions and vendor lock-in by selecting and integrating best-in-class technology in an open and scalable way.

IBSS offers two SaaS subscription license options, allowing customers to achieve fast workplace results with the flexibility to adjust their investment based on different office spaces they own or rent.

### What our customers are saying

"Based on what we've seen so far, the IBSS system from ICONICS will not only allow our team to pre-emptively fix the right issues at the right time, but it will enable us to do this based on the quantifiable impact unfixed faults will have on building performance and occupant comfort."

– PETER BICKNELL, HEAD OF ENGINEERING, 22 BISHOPSGATE

# Why Microsoft Azure?

## Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

## Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
