

Oscar, the excellent workmate.

About Oscar for Iconconsulting:

Iconconsulting is Italy's leading consulting firm focused on creating strategic value from data. Oscar is designed to provide our customers with concrete support in data management. It responds to existing market demands and stimulates two of the most decisive factors for success: collaboration and proactivity.

What we offer

The tool that allows you to build customized data entry applications, leveraging Excel's ease of use without having to write a single line of code.

Oscar is the perfect work partner: he brings order and becomes the source from which to obtain any type of data.

A tool designed to seamlessly integrate into existing business flows, allowing anyone to work on Excel® without the risk of compromising the integrity of the Data Platform.

The software is designed to generate data entry forms, with different views according to user roles and permissions. Application design is achieved through a familiar, intuitive, simple and inexpensive interface.

Oscar can be installed via Azure cloud services, making software installation quick and easy.

Customer Benefits

Flexibility and speed

Oscar allows you to create fully tailor-made data entry and data enrichment applications.

Security

You will continue to use Excel and the data is secured on a centralized system.

Freedom

The data is not scattered across Excel or stored on inaccessible systems. With no lock-in, the data is yours, wherever you want it to be.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
