# Understanding Insights Decisions Personalisation Experience

Idea 11's Data & Analytics Accelerator is a solution designed to help you get value from your data as quickly as possible.

Our Data & Analytics Accelerator helps you get results fast, to start leveraging your data quickly, and to provide a solution to keep building on. Production ready. All built on best-in-class software & cloud.

We rapidly deliver an initial use case, using your real-world data. And we help you determine what's next.

Let's get started.

A decorative graphic in the bottom right corner consisting of numerous diagonal lines of varying lengths and shades of blue, creating a sense of motion and data flow.

# Idea 11's Data & Analytics Accelerator

We build on leading Azure cloud services to leverage cloud storage and endless power.

**databricks**

Databricks Lakehouse is at the core, providing a versatile, cost effective and extensible data engine.

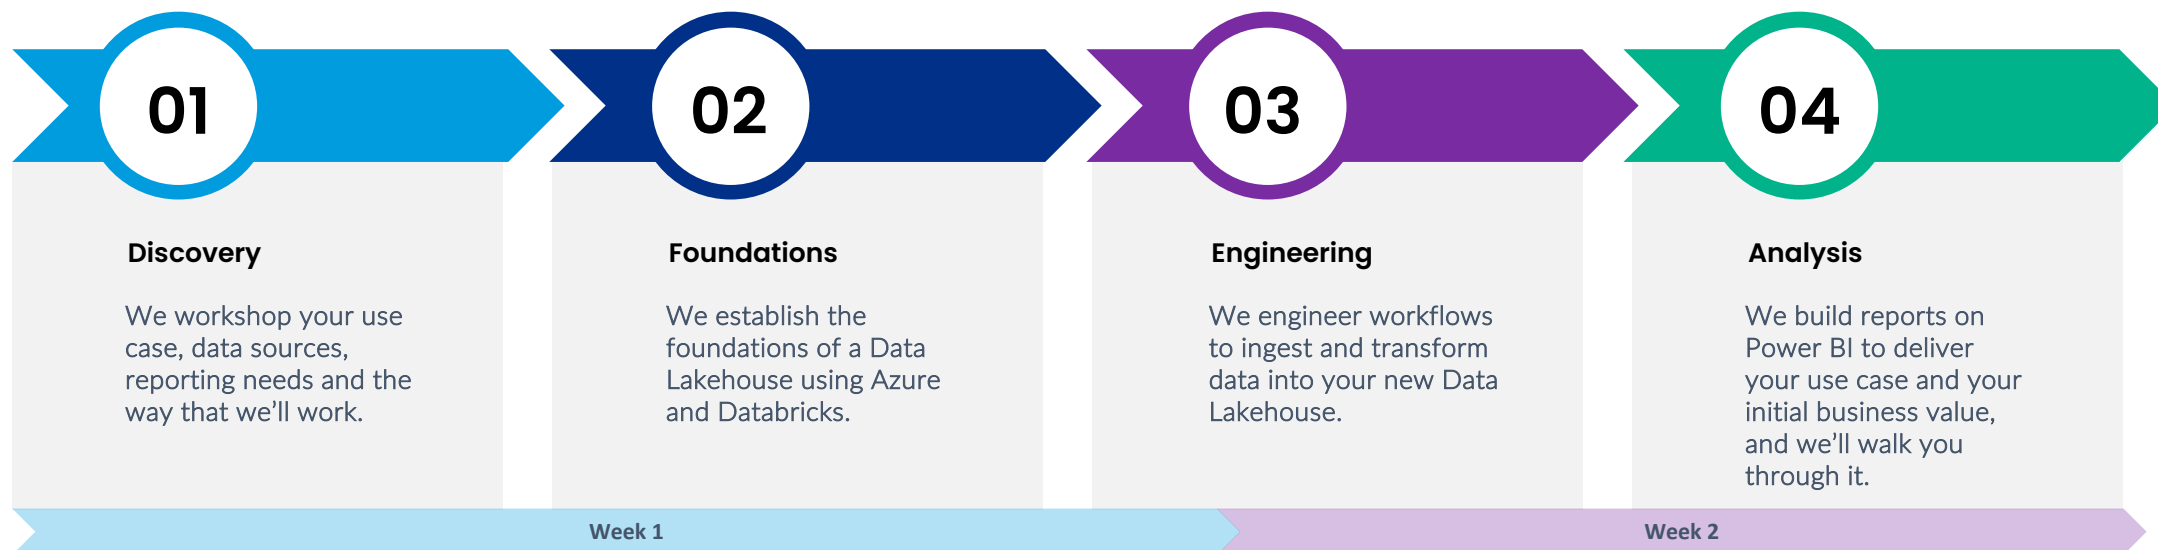

We use the class-leading Power BI solution to deliver interactive reports and dashboards that surface meaning in your data.

# Acceleration to business value in 2 weeks

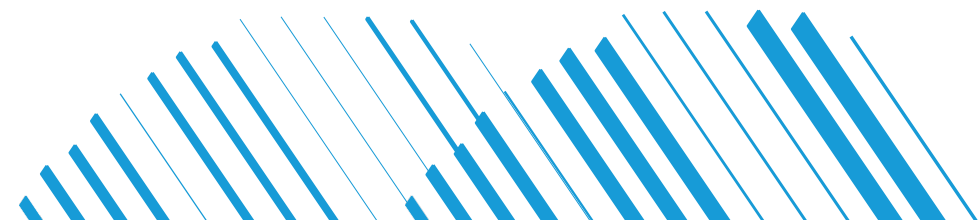

Our accelerated delivery is designed to deliver value from your data, fast.

# Your data journey starts here

- Delivered in a two-week agile sprint.
- A production solution to build on – not a POC.
- Led by an experienced Idea 11 Solutions Architect.
- We lead the way – from Discovery Workshop to Data Lakehouse and Reporting walk-through.
- We complete with a discussion on next steps – because this is just the start.

# We help organisations get the most out of their technology.

We work with organisations that have an appetite for change and who want to push the boundaries of their technology capabilities.
