Optimize your Microsoft 365 tenant today and future-proof your digital workplace

Your path to maximum productivity and ROI

Over a few days, our Microsoft 365 Tenant Health Check dives deep into your environment to assess usage, configuration, and AI readiness—delivering a custom optimization strategy to boost performance and prepare for the future.

Maximize your investment with expert insights.

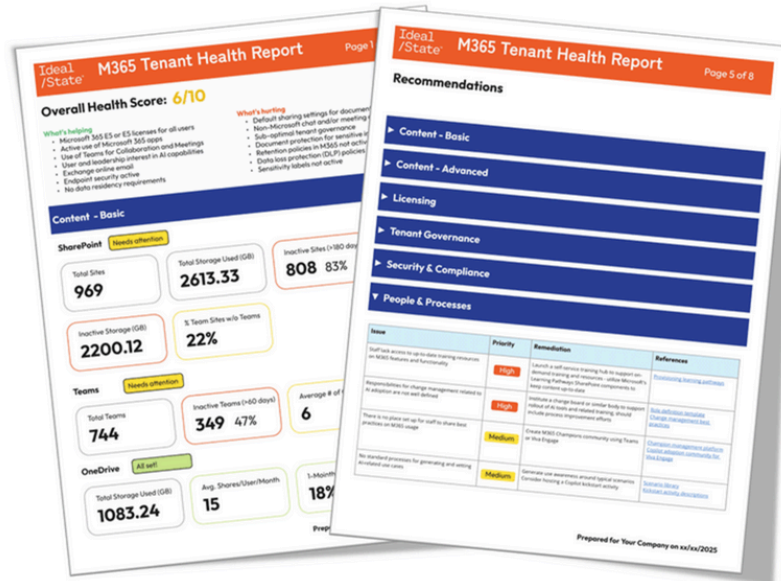

“The knowledge that Ideal State brings to the table across Microsoft 365, knowledge management, and change management is invaluable. We couldn't have asked for a better partner.”

Frank Williams, Director of IT, Humanity United

What's Included

A comprehensive review plus a game-changing strategy

Usage & Configuration Review

Analyze how your M365 tenant is performing and configured.

Licensing Audit

Assess your M365 licenses for cost savings and efficiency.

AI Readiness

Evaluate your data estate's preparedness for AI tools like Copilot.

Quick Wins

Identify immediate improvements and untapped opportunities.

Strategic Recommendations

Get insights for future value and optimization.

Final Deliverable

A tailored M365 Optimization strategy to guide your next steps.
