

PROFESSIONAL SERVICES

- Software configuration, integration, and deployment to meet organizational needs.
- Work with clients to analyze data, develop plans and perform scenario and trade-off analysis.
- Provide recommendations for compliance with reporting and regulatory requirements.
- Provide hands-on training on effective use of software to help teams get up to speed quickly.

SETTING THE NEW STANDARD FOR ASSET MANAGEMENT

AWARD WINNING SOLUTIONS

IDS Solutions have been recognized with the prestigious Innovation Award from the American Society of Civil Engineers.

IDS innovations have helped clients enhance their asset management systems and processes across many infrastructure sectors.

We build our reputation on a strong commitment to provide our clients with exceptional solutions and outstanding service.

CANADA-USA-MENA HQ: 2 RESEARCH DRIVE REGINA SK S4S 7H9 CHALLENGE

AI-POWERED ASSET INVESTMENT PLANNING AND PORTFOLIO OPTIMIZATION

UNSURPASSED OPTIMIZATION UNPARALLELED PERFORMANCE

Optimize cross-asset capital programs to minimize risk and sustain performance.

AI-based analytics and predictive modeling for smarter decisions.

Comprehensive asset-agnostic approach aligned with ISO 55000 principles and guidelines.

GIS-centric high-performance platform for integrating data and programs across departments.

Industry's most advanced cloud-based asset management software accessible anywhere, any time, at the lowest cost.

PORTFOLIO OPTIMIZATION Optimize investment plans for all asset types using advanced multi-objective optimization.

DATA ANALYTICS Intuitive analytics functions to understand and predict assets performance and deterioration.

SCENARIO ANALYSIS Evaluate long-range impact of funding scenarios and allocate budget to the right projects at the right time.

CRITICALITY AND RISK ANALYSIS Analyze consequence of failure and quantify risk and resilience of assets considering triple bottom line sustainability factors.

Track asset financial data, perform tangible

RULES & MODELS OF INTERVENTIONS

Specify cost, benefit, and rules of alternative asset improvement and replacement actions.

CAPEX/OPEX TRADE-OFF ANALYSIS

Analyze trade-offs between capital and operational budgets to determine optimal balance and ensure maximum performance at the lowest total cost.

PROGRAM MANAGEMENT Develop, monitor, and manage

multi-year programs and budgets across all assets.

VALUATION ANALYSIS & REPORTING

capital asset valuation, and easily generate required reports.

GEOSPATIAL DATA INTEGRATION

Use rich ArcGIS functionality to create, query, save, and share map layers.
