

## What we offer – Liquid C2

Multi-Tenanted Azure Stack Hub hosted by Liquid in Nairobi Kenya, Dar Es Salaam Tanzania and Harare, Zimbabwe.

For customers looking for their own Azure Stack Hub environments, Liquid C2 offers a fully managed, turnkey solution which can be deployed either in a Liquid Data Centre or customers environment.

Liquid C2 offers a full suite of professional and managed services to complement solutions.

Making use of our extensive network, Liquid offers a range of Cloud optimised Connectivity solutions. Whether you are connecting to the Cloud, within the Cloud or between different Clouds.
