

# Liquid C2's Azure VMware Services offer provides a seamless path to Azure for VMware-based workloads.

## About Liquid C2:

As the fastest-growing Cloud Service Provider across Africa, we confidently grow your business as you move towards a hyper-digitalised and competitive tomorrow. We understand that cloud adoption is not a one-time event.

## What we offer

Through structured assessment, onboarding, and migration phases, we help organizations modernize infrastructure, reduce costs, and align with Azure consumption commitments. Delivered virtually and tailored to your environment, our services ensure rapid deployment, minimal disruption, and full compliance.

### Business Outcomes

- Validated AVS landing zone & network integration with Azure.
- Risk-reduced migration (HCX) & wave plan with clear cutover runbooks.
- DR design (RPO/RTO by tier) and tested failover/failback.
- Operational readiness (monitoring, backup, patching, access, cost governance).
- Modernization roadmap to Azure services (data, AI/ML, analytics, storage).
