Your search ends here.....
at **+PHYSIO!**

COMPREHENSIVE AND EASY-TO-USE PHYSICAL THERAPY SOFTWARE.

+Physio is a comprehensive, fully integrated, and highly reliable physical therapy software that streamlines the entire workflow in a physiotherapy practice and offers several benefits for Physiotherapists. It offers swift, secure access to operations at any time, seamlessly integrates appointment scheduling, clinical workflow, patient engagement, invoices, and even billing.

What makes +Physio different from other software?

- Available in cloud and desktop versions
- Secure patient data and processes
- Seamless invoice and report generation
- High system uptime and availability
- User-friendly software
- Simple, inbuilt invoicing and bill generation solution
- Reliable support system
- New generation user interface (UI)
- Built with the latest technology stack

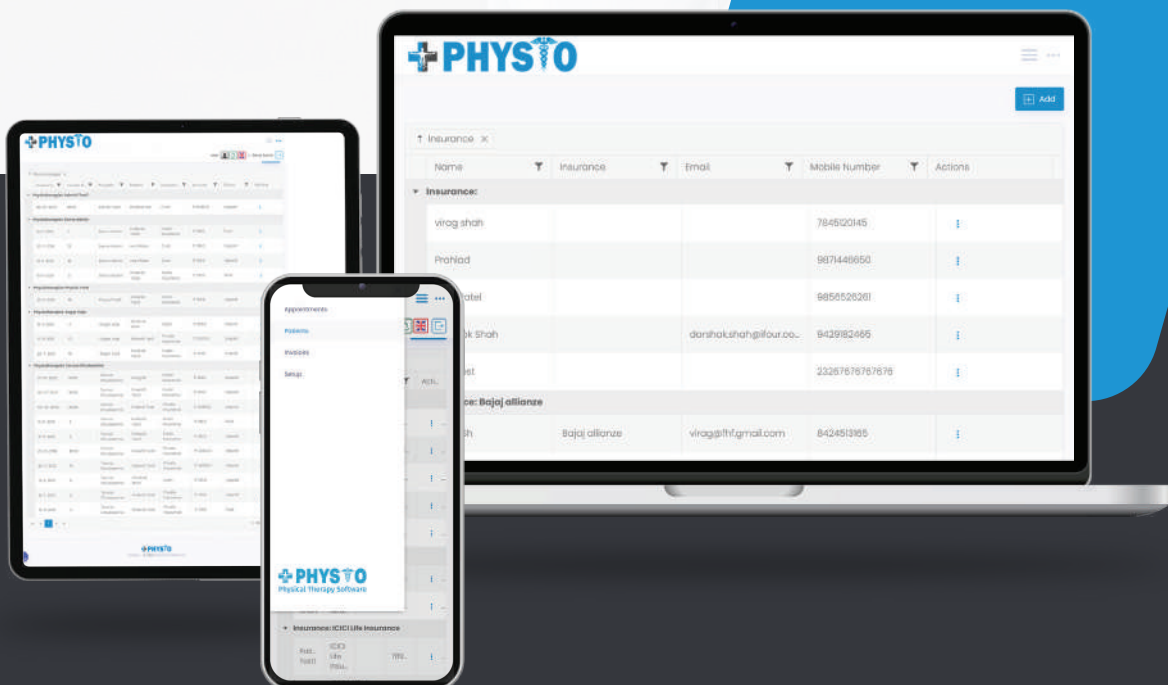

Clinical Workflow in +PHYSIO

Flexible Appointment Management and Scheduling

- Appointment scheduling and management are made quick, easy, and simple.
- Automated appointment reminders and notifications are synced with Google calendar.
- Quick access to the interactive calendar with daily, weekly, and monthly views.
- Easy management of No-shows, cancellations, and rescheduling appointments.
- Writing clinical notes in minutes.

Complete Patient Management

- Secures patient data management in the cloud and local environment.
- Ensures no loss of documents or records by keeping the patient's information stored, backed up, and synced to the cloud.
- Physicians can review a patient's record, plan treatment, track patient progress, and create task lists from a single screen.

Invoicing and Billing

- ▣ Financial analysis by location, department, providers, program, and more.
- ▣ All report data exportable with a single click to Excel, Pdf, etc.
- ▣ Extensive referral source tracking reports.
- ▣ Quick scan of current paper charts into the patient EMR.
- ▣ Emailing or faxing of documents to referring and participating providers from the system.

Setup and Administration

- ▣ Ease in documenting history & physical attributes, diagnoses, allergies, and medications, as well as insurance policy management
- ▣ In case of a consulting practice, +Physio manages all visiting Physiotherapists' details
- ▣ Can add basic clinic details as well as information about various clinic locations
- ▣ Management of leaves of Physiotherapists in a poly-practice and duty rosters
- ▣ Public holiday lists

 **PHYSIO** 
Software for Physiotherapists

+Physio software is very efficient to use. I can easily manage patients data with previous medical history. At the same time, can manage different treatments for my clinic. Invoice and report generation for day to day routine is also managed by the system itself so it's not been handled manually. I highly recommend this software to my peers.

Dr. Kartik Soni

Urmi Healing Center, India

I am a physical Therapist from Rwanda, I enjoyed using the +Physio software, it has a big variate of options which help a Physiotherapist Manager of a Clinic and other Physiotherapists to make sure everything is in order in terms of operations.... this software is a waowwww... it eases the tasks and make a Manager have it all in a single view I recommend other PTs to start using it and get changes.

Jean Damascene Bigirimana Ngamba

Founder & Managing Director of HealthEdu, Rwanda

Dr. Priyank Padaria

Priyank physiotherapy clinic, India

Full appointments list on dashboard and payment due section is good one through one can see all transactions as well as tracking status.
